NOTICE TO BOSTON COMMERCIAL SOLID WASTE HAULERS
Permit Requirements for Waste Haulers

Dear Commercial Solid Waste Hauler,

This notice is to advise you of the requirements for receiving your permit to remove and transport rubbish in Boston. **Your 2017 permit will expire on March 31, 2018.** To renew it, you must submit the following materials by April 1, 2018:

- The completed *Application for Permit for Removing or Transporting of Rubbish through the streets of Boston,* enclosed, along with the appropriate registration fee;
- The registration number of each truck on each separate application sheet;
- The signed *Waste Haulers Affidavit* certifying compliance with the City of Boston ordinance CBC 7-13.8, “Recycling Requirements for Waste Hauler,” enclosed; and,
- Each Truck must have one permit on each side of the body of the truck
- Permits Required: Commercial Trash Trucks and Commercial Organics Trucks: Recycle Trucks, **Do Not** Require Hauler permits.
- The completed *Commercial Waste Hauler Recycling Data Report,* enclosed, which **Must** contain the following information:
  1) The total number of commercial customers in Boston;
  2) The number and total percentage of Boston customers that utilize the hauler’s recycling service;
  3) The total amount of solid waste tonnage collected and the total amount of recyclables collected from Boston customers;
  4) A description of the hauler’s education materials related to recycling services.

If you are unable to offer recycling services to all commercial customers pursuant to ordinance CBC 7-13.8, you may choose to petition the Public Works Department to approve an alternative procedure for offering recycling services. This may include establishing a partnership with another hauler to offer recycling services to commercial customers.

Please complete these three documents along with an email address and contact info, and submit them by April 1, 2018 to: Luzia Cardoso, Waste Reduction, Boston Public Works Department, Rm 219, Boston, Ma 02118

Very truly yours,

Robert W DeRosa
Superintendent of Waste Reduction

Company
WHEREAS, Massachusetts has enacted the Massachusetts Waste Ban, 310 CMR 19, which requires certain materials, such as glass, plastics and paper, to be recycled. In order to comply with the Waste Ban, the City of Boston provides residents with free recycling bins and curbside recycling pick-up. However, businesses located in Boston, must enter into private contracts with haulers in order to recycle; and,

WHEREAS, The Waste Ban requires businesses to recycle materials, such as paper, glass bottles, and cardboard; however, the Waste Ban is difficult to enforce against businesses. The Waste Ban is primarily aimed at solid waste facilities and prevents facilities from accepting recyclable materials. It is the hauler, not the business that transports the materials to said facilities. Businesses have little incentive to contract with a hauler to have their recycling picked-up; and,

WHEREAS, In order to ensure compliance with the Waste Ban, the solid waste haulers need to offer more recycling collection to businesses. This would encourage businesses to separate recyclable materials from solid waste; NOW, THEREFORE

Be it ordained by the City Council of Boston, as follows:

CBC Chapter XII is hereby amended by appending the following:

7-13.8.1 Commercial Recycling Requirements for Waste Haulers

7-13.8.2 Purpose
It is the intent of this section to maintain and expand Boston’s recycling initiative by ensuring that all businesses have access to recycling programs. Requiring haulers to offer recycling to commercial businesses will increase accountability for solid waste disposal. This will result in increased compliance with the Massachusetts Waste Ban by haulers and businesses and a reduction of unnecessary disposal of usable raw materials.

7-13.8.3 Definitions
When used in this section only, unless a contrary intention clearly appears, the following terms shall have the following meanings:
Commissioner means the Commissioner of Public Works of the City of Boston, or such person as said Commissioner may delegate.

Hauler means any public or private solid waste collector.

Recyclables means materials that are restricted from disposal and transfer for disposal at solid waste facilities in Massachusetts pursuant to 310 CMR 19.017. These Waste Ban items include: leaf and yard waste, tires, white goods, metal, glass and plastic containers, paper and cathode ray tubes, asphalt pavement, brick, concrete, metal, wood.

7-13.8.4 Permitted Haulers to Comply
As a precondition to receiving a permit from the Commissioner pursuant to CBC 23-1, all haulers shall offer all commercial solid waste customers the services of collecting and properly disposing of recyclables. The Commissioner shall require all haulers to sign an affidavit certifying that they are in compliance with this section as a condition of said permitting application process.

7-13.8.5 Alternative Procedure
If any hauler affected by this section is unable to offer recycling services to all commercial customers, said hauler may, in the alternative, petition the Commissioner to approve an alternative procedure for offering recyclable services. The Commissioner shall have the discretion to grant a permit pursuant to CBC 23-1 upon determining that the hauler is unable to comply with subsection 7-13.8.4 and said hauler has established an adequate alternate recycling service procedure, including but not limited to, establishing a partnership with another hauler to offer recycling services to commercial customers.

7-13.8.6 Education
a. All haulers affected by this section shall provide its commercial customers with informational materials detailing its recycling services and educational materials regarding recycling.
b. Upon filing for an initial or renewal hauler permit, all haulers affected by this section shall provide the Commissioner with an annual report that contains the following information for the preceding fiscal year: (i) the total number of commercial customers; (ii) the number and total percentage of commercial customers that utilize the hauler's recycling service; (iii) the total amount of solid waste tonnage collected and the total amount of recyclables collected; and (iv) a description of its customer education materials related to recycling services.

7-13.8.7 Enforcement
The Commissioner shall enforce the provisions of this chapter and shall have the authority to issue regulations for the purpose of enforcement.

7-13.8.6 Penalties
Failure to offer recycling services under 7-13.8.5, failure to obtain alternate procedure approval from the Commissioner under 7-13.8.5, or failure to comply with the education requirements in
