2016 Asset Allocation Update

At the January 2016 Board meeting, NEPC recommended that the Board consider eliminating its global bond target of 2% in lieu of other attractive opportunities. NEPC provided three potential asset allocation mixes for the Board’s consideration. Each of the three mixes under consideration and being discussed are geared towards return-seeking assets.

It was noted that as the markets have fallen off in 2015, and again during the first seven weeks of 2016, some opportunities have been created, particularly in opportunistic credit and global asset allocation (GAA).

The Board agreed it would be helpful to hear from a couple of our current managers about the status of our current investments with them, and seek an insight into opportunities they are seeing out in the markets now. Mr. Kelly will follow up with NEPC to facilitate having a couple of the Board’s current managers in at the March Board meeting.

Private Equity Search Respondents

NEPC provided a preliminary list of respondents to the System’s Private Equity search. The scope of this search is to identify a buyout, growth and/or special situation fund(s) to deploy the System’s $60 million 2016 commitment amount. NEPC will provide a more detailed summary of the respondents at the March meeting and encouraged the Board to let NEPC know if there are respondents the Board is particularly interested in.

Updated December 2015 & January 2016 Flash Report

After receiving the 4th quarter RE and PE data the final 2015 return for the total Plan was a negative -0.5%. In January of 2016 the total Plan was down -3.7%. Small Cap equities were hit the hardest in January down -9.0%.

Q3 Real Estate & Private Equity Reports

NEPC presented the Q3 Real Estate and Private Equity Reports. Real Estate and Private Equity were up 2.9% and 1.8% respectively for the quarter.
