$2,066,543

In City Council June 29, 2011. Passed, yeas 12, nays 1.
Approved by the Mayor on July 1, 2011.

Attest: Rosaria Salerno
City Clerk
TO THE CITY COUNCIL

Dear Councilors:

BPS currently has its lowest dropout rate in over two decades, and graduation rates have increased for four consecutive years. This budget, which represents a $9.5 million increase over the current year’s budget, maintains important Acceleration Agenda investments and promotes systemic changes that position the district for continued progress.

We are proud that despite ongoing budget challenges, we are able to present a balanced budget that maintains our investments in key categories, including:

- Kindergarten for 4 year olds
- Arts opportunities
- Extended day at the Turnaround schools
- Newcomers Academy
- International Baccalaureate programs
- Reengagement Center
- Credit recovery
- 2 new Horace Mann Charter Schools and 1 Innovation School

This budget represents the first time Boston Public Schools allocates money to students based on a Weighted Student Funding formula. This is a fundamental shift in the way we allocate money to schools that empowers principals and is a far more equitable and transparent system than we have ever had before. It also reflects difficult choices required – such as closing nine schools and merging eight schools into four to eliminate a quarter of our empty seats – to successfully close a projected budget gap of more than $60 million while actually improving the services we provide for children.

This budget funds students and not buildings. Resources are allocated to each school based on its enrollment and the specific needs of its students. This is a change from the previous system, in which we tried to maintain a school's staffing level before we accounted for the number or needs of the students who actually attended that school.
In addition to weighted student funding, this budget reflects systemic changes in how students with disabilities and English Language Learners are served. This budget also significantly expands the number of English as a Second Language teachers and provides more Sheltered English Immersion programs to students. The reforms included in this budget will also provide more stability and continuity, increase opportunities for inclusion, and create highly specialized programs for students with disabilities. To support the transformation of educational opportunities for students with disabilities, this budget includes a one-year infusion of resources to aid in the transition.

Ultimately, this budget upholds a core goal of the Acceleration Agenda: ‘To redesign district services for effectiveness, efficiency, and equity.’

I respectfully request your support of the FY12 appropriation for the Boston Public Schools.

Sincerely,

TO THE CITY COUNCIL

Dear Councilors:

I transmit herewith for your approval an order appropriating $35,000,000 to the Other Post Employment Benefits (OPEB) Liability Trust Fund authorized under Chapter 32B, §20, as added by Chapter 479 of the Acts of 2008.

With your approval, this proposed amount will bring the total appropriated over the last four years toward the City’s OPEB liability to $135 million. While meaningful progress has been made, this amount represents a mere 2.9% of the $4.7 billion unfunded actuarial accrued liability for Boston’s retiree health care plan. Also note this estimate of total liability has recently been updated to include the adoption of MGL Chapter 32B, Section 18A, which requires future Medicare-eligible retirees to enroll in a Medicare supplemental plan.

The provision of health care coverage for employees and retirees is a significant financial challenge facing municipalities across the county. As costs continue to rise and crowd out other City spending, sustaining these promises made to current and future retirees will only become more difficult. The City must remain committed to responsibly fund this obligation now and prevent shifting this burden to future generations.

Sincerely,
