PARK TO PIER

CHANGING TIDES AT MOAKLEY

A double layer of dikes, channeled freshwater barriers and beach and dune expansion provide for multiple layers of defense against storm surge events while providing for topographical interest and viewing opportunities.

EMBRACING THE ISLANDS

Water taxi and ferry service expand the reach of residents to the city's natural resources and downtown.

IMPLEMENTATION STRATEGY

PHASED INSTALLATION allows for uninterrupted sports use and prioritizes neighborhood connection to the park and resiliency measures.

RESILIENCY IN THE PARK

Phased installation allows for uninterrupted sports use and prioritizes neighborhood connection to the park and resiliency measures.
