Boston Employment Commission Project Review

BRJP Issues and Highlights:

- Component Assembly System has the largest workforce hours. 37,149 hours of which 22% residents, 26% people of color and 2% female. The people of color goals were exceeded.
- The overall average submission time for payrolls is 8.3 - days the required average is 7 days. We will continue to work with the contractors to report all payroll submission on time.
- 158 Boston Residents have been reported. 81 (51%) have been successfully verified. 77 (49%) have not been verified.
- Component Assembly continues to struggle with Boston residents (22%) and females (2%). The low female percentages are reported on trades that typically have higher percentages (carpenters and laborers).
- Although the overall goals are below par – there has been an increase in Boston resident and people of color categories recently.
- The overall top five contractors average resident percentage is 23%, People of color 25% and female 6%
- J.K Glass has had significant negative impact in driving down the resident and people of color numbers – 11,491 total hours, 17% residents, 19% people of color and 4% females.
- American Plumbing has failed in meeting BRJP goals in every category. 18% residents, 20% people of color and 5% female.
- Component Assembly System continues to struggle with residents and females - 22% residents and 2% females.

RECOMMENDATIONS: The BRJP Office recommends that Suffolk Construction:

- American Plumbing, Component Assembly, J.K Glass Co. Inc. must submit Corrective Action plan within the next 10 days – a corrective action meeting will be held if the plan is not submitted and/or it's not sufficient.
- The plan of action should provide details as to the reason(s) why Component Assembly has not attracted female carpenters or labors to their workforce.
- Reduce the amount of unverified Boston residents and verify future Br's within first week on-site.
- Provide documentation from union halls in regards to efforts to diversify.
