ORDAINED: By the Boston City Council, as follows:

Section 1:

The City of Boston Code, Ordinances, Chapter VIII shall be amended by adding at the end thereof, the following new section and subsections:

8-13: Establishing the Equitable Regulation of the Cannabis Industry in the City of Boston.

8-13.1 Purpose

The purpose of this ordinance is to ensure equity in the City of Boston’s cannabis industry. The policies enacted during the “War on Drugs” and its associated policies have had a disproportionate impact on people of Black, African American, Latino, and/or Hispanic descent. Within the City of Boston, neighborhoods particularly impacted include Roxbury, Dorchester, and Mattapan. It would be unjust if, following the legalization of cannabis by the voters of the Commonwealth of Massachusetts, people from the affected groups were not allowed to receive the economic benefits of legalization.

8-13.2 Definitions

“Area of disproportionate impact,” means a geographic area identified by the Boston Cannabis Board or the Cannabis Control Commission, which has had historically high rates of arrest, conviction, and incarceration related to marijuana crimes between 1971 and 2016.

“Cannabis Control Commission” or “CCC,” as used herein, shall refer to the Massachusetts Cannabis Control Commission.

“Close associate,” a person who holds a relevant financial interest in, or is entitled to exercise power in, the business of an applicant or licensee and, by virtue of that interest or power, is able to exercise a significant influence over the management or operation of a marijuana establishment licensed under this chapter.

“Craft marijuana cooperative,” a marijuana cultivator comprised of residents of the Commonwealth and organized as a limited liability company, limited liability partnership, or cooperative corporation under the laws of the Commonwealth. A cooperative is licensed to cultivate, obtain, manufacture, process, package and brand cannabis or marijuana products to transport marijuana to Marijuana Establishments, but not to consumers.

“Investor,” any person or entity who has provided a marijuana applicant with financial resources in exchange for an ownership stake in the business.

“Licensee,” a person or entity licensed by the Boston Cannabis Board and the Cannabis Control Commission to operate a marijuana establishment.

“Marijuana applicant” or “applicant,” any person, business, organization, or group that has submitted an application to the City of Boston to open a marijuana establishment.

“Marijuana,” or “cannabis” all parts of any plant of the genus Cannabis, not excepted below and whether growing or not; the seeds thereof; and resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture or preparation of the plant, its seeds or resin including tetrahydrocannabinol as defined in section 1 of chapter 94C; provided, however, that “marijuana” shall not include: (i) the mature stalks of the plant, fiber produced from the stalks, oil, or cake made from the seeds of the plant, any other compound, manufacture, salt, derivative, mixture or preparation of the mature stalks, fiber, oil or cake made from the seeds of the plant or the sterilized seed of the plant that is incapable of germination; (ii) hemp; or (iii) the weight of any other ingredient combined with marijuana to prepare topical or oral administrations, food, drink or other products.

“Marijuana cultivator,” an entity licensed to cultivate, process and package marijuana, to deliver marijuana to marijuana establishments and to transfer marijuana to other marijuana establishments, but not to consumers.

“Marijuana establishment,” a marijuana cultivator, independent testing laboratory, marijuana product manufacturer, marijuana retailer, marijuana research facility, or any other type of licensed marijuana-related business.

“Marijuana independent testing laboratory,” a laboratory that is licensed by the Cannabis Control Commission and is: (i) accredited to the most current International Organization for Standardization 17025 by a third-party accrediting body that is a signatory to the International Laboratory Accreditation Cooperation mutual recognition arrangement or that is otherwise approved by the Cannabis Control Commission; (ii) independent financially from any medical marijuana treatment center or any licensee or marijuana establishment for which it conducts a test; and (iii) qualified to test marijuana in compliance with 935 CMR 500.160 and MGL c. 64C, sec. 34.

“Marijuana product manufacturer,” an entity licensed to obtain, manufacture, process and package marijuana and marijuana products, to deliver marijuana and marijuana products to marijuana establishments and to transfer marijuana and marijuana products to other marijuana establishments, but not to consumers.

“Marijuana products,” products that have been manufactured and contain marijuana or an extract from marijuana, including concentrated forms of marijuana and products composed of marijuana and other ingredients that are intended for use or consumption, including edible products, beverages, topical products, ointments, oils and tinctures.

“Marijuana research facility,” an entity licensed by the Cannabis Control Commission to engage in research projects. Such a facility may cultivate, purchase, or otherwise acquire cannabis for the purpose of conducting research regarding marijuana or marijuana products. A research facility may be an academic institution.

“Marijuana retailer,” an entity licensed to purchase and deliver marijuana and marijuana products from marijuana establishments and to deliver, sell or otherwise transfer marijuana and marijuana products to marijuana establishments and to consumers.

“Marijuana social consumption operator,” a marijuana retailer licensed to purchase marijuana and marijuana products from marijuana establishments and to sell marijuana and marijuana products on its premises only to consumers or allow consumers to consume marijuana or marijuana products on its premises only.
