**DESIGN REVIEW**

**144-150 Saint Botolph Street (18.844 SB):** Replace three non-original glass and metal entry doors and replace with 8-lite mahogany doors with single sidelite.

Representative: Larry Boyd, JLB Builders.

The applicant presented photographs of the existing conditions, the proposed door specifications and drawings. The applicant noted that the existing doors at all three openings are clearly not original to the structure and are of a modern design. Staff mentioned that there are no photos or plans on record detailing what the building used to look like and that staff recommends the applicant takes a similar style property as inspiration for the proposed door; also that the proposed multi lite doors were not appropriate. After this, the applicant noted that the manufacturer was already contracted and completed the doors.

The Commission agreed with staff on the appearance of the multi lite doors and how there was no precedence for them in the district.

The Commission noted that the wood doors are appropriate but the details could be left to staff to sign off on.

**In conclusion the application was approved with the following proviso. R. Henderson initiated the motion and F. Elise seconded the motion. The vote was 4-0 (FE, RH, ST, BW).**

- **That updated drawings showing the mullions removed on the doors and sidelites are to be submitted to staff; and**
- **That the double door transom is a single lite with no divisions.**
