BLUEBIKES PUBLIC BIKE SHARE
EXPANSION IN HYDE PARK, MATTAPAN AND DORCHESTER

Your neighborhood has been prioritized for bike share expansion.
The Boston bike share system is owned by the City of Boston, and provides convenient and affordable transportation. The Go Boston 2030 long-term transportation plan calls for every household in the City to be within a 10-minute walk of bike share. To help reach this goal, we are planning to add new stations in Hyde Park, Mattapan and Dorchester this summer, including a station near your address. See the diagram on the back that describes the specific location.
