

Sample Overview

■ Renters ■ Homeowners

■ Female ■ Male

Key Findings

→ 76% of respondents had some amount of student debt and 24% had none

→ 2/3rds of the respondents with no student debt identified as white

→ 62% of homeowners had student debt

→ 81% of renters had student debt

→ 45% of respondents who had debt carried a balance over \$60,000

→ 39% of those with debt over \$60,000 were Black, whereas 18% were Latinx and 25% were white

Most pressing concerns about homeownership:

“Long term affordability and assisting my children with their student loan debt.”

“Credit score and ability to maintain housing issues as they may arise”

“All of my early career and housing choices were based on being able to make [student loan] payments”
