Boston Employment Commission Project Review

BRJP Highlights and Concerns:

- Project is 40% complete.
- 91% of Boston Residents have been verified for this project. Continue to verify Boston Residents once they go through their safety orientation because this has shown to be the most effective way in verifying residents.
- For this project to be successful there has to be more attention focused towards the hiring of Boston Residents Laborers through the union halls. We have to work together to make sure that we are showing and taking initiative. As they will be on the entirety of the project.
- Payroll reporting has been at 6 days meeting the 7 day requirement.
- Continue engaging underperforming subcontractors by having them provide a corrective action plan to better meet the employment standards.
- Continue to encourage subcontractors deficient in any category, to take steps to make improvements by providing information about pre-apprenticeship programs, such as Building Pathways and Youth Build.
- Invite business agents to upcoming pre-construction meetings to ensure sub-contractors are being pro-active in reaching employment standards prior to mobilizing on site.
