01:26:13 Jesula Philome: Gabriella Joseph K2 Morther .l would like to understand this meeting in french or haitien creole please. Thanks.
01:26:31 Rayne valentine: Personally, I think that the new superintendent's main priorities should include the following:

Mental Health and, more obviously, Covid.

Covid - I think the current protocols are fine, and therefore should, a) stay the same, or b) be improved.

Mental health - although we have councilors and all, I think there should be more resources openly available. For example, some people do not feel comfortable going to a school councilor in the middle of the day, and therapy can be expensive. If these resources were given out to everyone, at the beginning of the year lets say, that could potentially make certain more individuals more willing to reach out. Also, discounted therapy opportunities would be beneficial to those in lower income areas for the reason listed above, its pricey.
As a student this may be a bit biased, (this does link into Mental Health) but I believe there should be a cap on the amount of homework given at a time. It not only is time consuming, but sometimes draining and given in excess.

01:26:44 Rayne valentine: Rayne, grade 5, East Boston.
