MBTA Orange/Green Line Diversion: Temporary Traffic Restrictions in Boston

The City of Boston has been coordinating with MassDOT and neighboring municipalities in preparation for the MBTA's full Orange Line diversion and partial Green Line diversion (Union Square to Government Center). This document details the roadway changes in Boston due to the impending Orange Line shutdown and support for the shuttle diversion. Because of the altering traffic patterns to ease traffic flow for shuttle buses, the City and MassDOT have reached out to virtual mapping softwares to have these changes codified into their systems for ease of navigation. The following changes will be in effect from August 19th at 9pm to September 20th at 5am; however, some changes might lag due to signage and striping details might lag due to crew and equipment availability.

Temporary Traffic Changes due to MBTA Orange/Green Line Shuttles

- **Charlestown**
  - Austin Street at Rutherford Ave - Some Turn Restrictions
  - Rutherford Ave Bus Lanes from Austin Street to Sullivan Square
  - Gilmore Bridge Bus Lanes from Rutherford Ave to Charles River Dam Road (Cambridge)
