Dr. Bisola Ojikutu, Executive Director

Cabinet Mission

The Boston Public Health Commission ensures the preservation of accessible, high quality, and community-based health care to Boston residents regardless of ability to pay. The overall mission of the Boston Public Health Commission is to protect, preserve and promote the health and well-being of Boston residents, particularly those who are most vulnerable. Our mission is met through the provision and support of accessible, high quality and community based health care, disease and injury prevention, health promotion and health education. In fulfillment of its mission, the Commission works collaboratively with area hospitals, community health centers and community based organizations to foster access to health services for the culturally and economically diverse communities of Boston.

Program 1. Public Health Services

Dr. Bisola Ojikutu, Executive Director, Organization 620100

Program Description

The Boston Public Health Commission promotes the health of the people of Boston by protecting and fostering the three core functions of public health: assessment, assurance and policy development. It carries out these functions through a wide variety of activities including health promotion and disease prevention initiatives (such as neighborhood outreach and community education); provision of critical health services for vulnerable, under-served and at-risk populations (such as health and wellness clinical and education services for school aged children, emergency shelter and transitional housing and support services for the homeless, and substance abuse treatment for those suffering from addiction); emergency preparedness and response (such as pre-hospital emergency medical care and transport, infectious disease surveillance and outbreak control, and environmental hazards prevention and response); monitoring and reporting on the health status of the city's residents (such as city wide and disease specific health status reports); and development of public policy approaches that support positive health outcomes (such as tobacco control, banning the use of transfats in food establishments, regulating biological laboratories, and environmental health regulations).
