

GUIDELINES FOR THE ALLOWANCE OF DOGS IN OUTDOOR DINING AREAS

As Boston continues to become a more dog friendly city the Inspectional Services Department's Health Division is expanding its dog friendly policy to include restaurant patios to ensure safe spaces where dog owners and their pets can enjoy Boston's numerous restaurants. All restaurants and beer gardens with outdoor space in Boston can now apply for a new **Dog Friendly Spaces** variance.

This guide will provide you with a list of rules and regulations the restaurant establishment and staff must follow and also the dog owners responsibilities.

Requirements

Food service establishments must fill out an application and receive a variance from Boston Inspectional Services Department prior to permitting patrons' dogs on the premises. To be approved, establishments must provide the Health Division with a clear diagram and a description of the outdoor dining area to be designated as a Dog Friendly Space. The diagram (which must be accurate and to scale but does not need to be prepared by a licensed design professional), must include the following:

- The dimensions of the designated outdoor dog friendly area;
- The number and placement of tables, chairs, and restaurant equipment, as applicable;
- All entryways and exits for the designated outdoor dog friendly area (to include dog areas and any non-dog areas, including back of house spaces);
- Any and all fences or other physical barriers in the designated outdoor dog friendly area;
- The surrounding property lines and public right-of-way, including sidewalks and common pathways;
- Any other pertinent information relating to the designated outdoor dog friendly area.

Once all pertinent information has been submitted and the waiver has been approved, the owner/manager of the establishment must comply with the following:

- Employees cannot touch a dog while working
- Tables must be clean and sanitized after every use
- The owner of the establishment must provide signage indicating the area is a dog friendly zone
- Tableware cannot be stored in dog friendly areas
- Preset tableware is not allowed in dog friendly area
- Food prep is not allowed in "dog friendly zone" (includes food, beverage and ice)

The owner/manager of the establishment must provide outdoor accommodations, including but not limited to:

- Provide waterless hand sanitizer on every table
- Designate trash can for waste
- Serve dogs water (only) in bowls provided by dog owners or in single use containers
- Dogs are not permitted to enter the interior of restaurants, unless they are licensed service dogs.

Dog owners responsibilities

For the safety of your pet, other diners and dogs we ask all dog owners follow the guidelines listed below:

- Bring a disposable water bowl (*recommended*)
- Make sure your dog is controlled on a leash or pet carrier at all times
- Dogs are not permitted to eat off of plates
- Dogs must have all required [licenses](#) and rabies vaccinations
- Dogs are not allowed on the table nor chairs

Learn rules and regulations of owning a pet in the City.
