

# Better bike lanes on **BOYLSTON & BERKELEY STREETS**

We're adding separated bike lanes on Boylston Street, Berkeley Street, a block of Beacon Street, and two blocks of Columbus Avenue as part of an expansion to close gaps in Boston's low-stress bike network. The new lanes will create continuous, comfortable rides through the Back Bay from Fenway and the South End. The new, two-way lane on Beacon Street will bring bikers all the way to the Arthur Fiedler Footbridge and the Charles River.

# Ciclovías mejores en **BOYLSTON & BERKELEY STREETS**

Añadiremos ciclovías en Boylston Street, Berkeley Street, y una manzana de Beacon Street. Las nuevas ciclovías son parte de una expansión para cerrar las brechas en la red de rutas de bajo estrés para el ciclismo en Boston. Crearán paseos continuos y cómodos a través de Back Bay desde Fenway y South End. La ciclovía de Berkeley se conectará a una nueva ciclovía de doble sentido en Beacon Street, llevando a las ciclistas al Arthur Fiedler Footbridge y al río Charles.
