

SAFETY COUNTS

The City of Boston's Construction Safety Ordinance provides you with An extra layer of safety protections on the job!

ALL WORKERS DESERVE TO WORK IN A SAFE ENVIRONMENT

- Every Site must have a Site Safety Plan defining planned protections from the potential hazards
- All workers must participate in a Site Safety Orientation annually which includes a review of hazards and safety procedures.
- All workers must attend regular Pre-Shift Safety Meetings.
- All permit holders for construction and demolition worksites operating in the City of Boston are required to submit a Site Safety Plan Affidavit,
- A Site Safety Coordinator must be on site at all times at construction sites larger than 50,000 square feet or demolition projects larger than 4 stories.
