Request for Proposal: Biosafety Level 4 Laboratory Consultant
Proposal Due Date: May 2, 2025

Q1: We do not have someone on staff that is certified to enter BSL4/ABSL-4 lab space. While not certified to enter a BSL-4 unescorted, they could enter with an escort. Is entering the facility with an escort acceptable or does this prevent us from providing a proposal for this RFP?

A: BPHC Consultants will enter BSL4 laboratories with an escort during inspections and lack of staff with clearance to enter a BSL4 unescorted should not prevent submitting a proposal to BPHC. Staff with prior experience related to containment facilities (BSL3 and/or BSL4) is required.
