Superior Fence & Rail offers Trex®, the industry-leading composite fence system. When you are looking for an alternative to wood and vinyl, upgrade to Trex. The fence systems from Trex are unique products that were created to give consumers the best of both wood and vinyl. Trex has the natural look of wood and vinyl's low-maintenance benefit. The durable material also has a distinct style that is completely unique to Trex. The board-on-board design is a system of interlocking pickets which provide full privacy, incredible strength, and an aesthetic appeal that will set your property apart from others.
