# FREE VACCINE CLINICS

The Boston Public Health Commission is hosting vaccine clinics throughout Boston. Get your flu and COVID-19 vaccines for free. Some clinics will also offer routine childhood vaccinations.

Staff will ask for your insurance and identification card, but insurance and identification are not required. If you have a health insurance card, please bring it with you.

*Vaccines are safe, effective, and protect against serious illness. Getting vaccinated keeps you healthy and helps protect your family, friends, and community.*

*Free, no appointment necessary, walk-ins welcome*

**For clinic information, scan the QR code or visit boston.gov/vaccine-clinics**

Questions about the clinics, eligibility, accessibility, or language interpretation? Email info@bphc.org or call 617-534-5050.
