SUBMITTALS (REVISED)			
Since wood is a natural material, variations in color, texture, & grain may occur. (See add section 190) architectural millwork is a finish that is installation should follow other trades in a controlled environment. Damage by other trades or from being subject to adverse conditions (relative humidity below 25% or above 55%) will result in additional costs and/or void the warranty. (See add section 190)
