

HISTORIC PRESERVATION

Historic buildings, landscapes, and resources are defining elements in Boston's sense of place. All residents need access to the economic development, sustainable living, and cultural connection that historic preservation brings. Bostonians in every neighborhood feel passionate about their local history and support the preservation of special local places to ensure their longevity.

2018

B

Church of the Covenant

Historic Preservation 2018

Back Bay

- 67 Newbury St, Boston, MA 02116

CPA Award: \$675,000

Description of Project:

Exterior masonry and roof on the South elevation, facing Newbury Street. Address problems around the entrance. Built in 1867 of Roxbury puddingstone in the Gothic Revival style, the building was designed by Richard M. Upton. With a distinctive interior, largely the work of Tiffany & Co., this building was one of the first churches to relocate to the new Back Bay.

Scan the QR code to learn more about CPA!

THE MARY ELIZA PROJECT: BOSTON WOMEN VOTERS IN 1920

We're making a searchable database of the more than 50,000 women who registered to vote in Boston in the months after they gained voting rights from the Nineteenth Amendment (1920).

Through a Community Preservation Act Grant, the City Archives is transcribing 160 handwritten volumes of General Registers of Women Voters from the City of Boston (August to October 1920). The transcribed data will be available to the public as a fully searchable and sortable excel spreadsheet.

The Mary Eliza Project is working closely with the City Archives to research people and places connected to the voter registrations. This includes some of the women voters themselves, and telling their stories here along the way.

The Mary Eliza Project is named in honor of Mary Eliza Mahoney (1845-1926). The pioneering African American nurse and civil rights activist is one of the many Boston women who registered to vote in 1920.

Global Ministries Christian Church
