Concept Preference and Community Engagement

- During the discussion, a community member expressed a preference for Concept C.
- Max Sell encouraged community meeting attendees to email him with any additional comments or feedback regarding the park to help inform the landscape design.

Follow-Up Actions

- Community feedback received to date is fragmented; therefore, the team will refine its outreach approach by identifying and contacting local neighborhood associations to share the park presentation and gather more focused, actionable input.
- Max Sell will distribute an electronic survey for community input on the 3 concepts.
