CITY OF BOSTON
Martin J. Walsh, Mayor

SECRET 0240

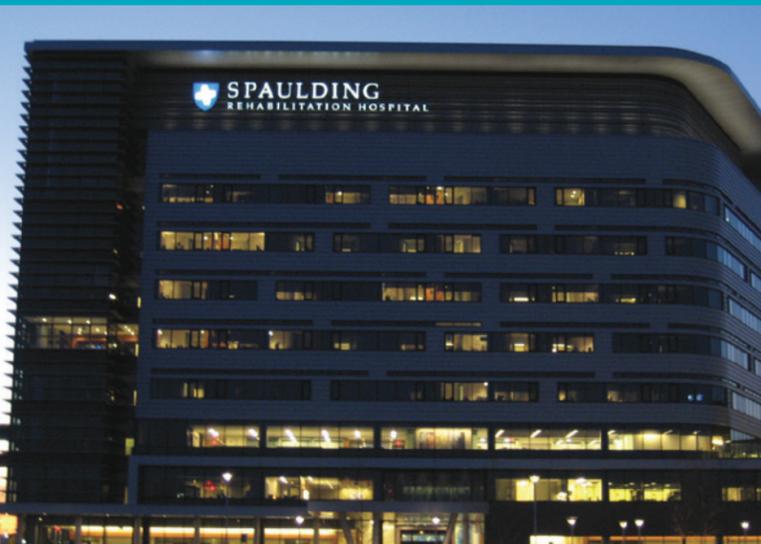

#1 U.S. City for NIH Funding

21 consecutive years in receiving the most NIH funding of any U.S. city

41 Boston Institutions Received **3,491** NIH Awards, totaling more than **\$1.74 billion** in funding in Fiscal Year 2015

LONGWOOD MEDICAL AREA

Set the Foundation

Boston's Longwood Medical Area is a world famous epicenter for health care, medical training, and research featuring:

- ▶ Over 46,000 scientists, researchers and staff, and more than 21,000 students
- ▶ Leading institutions including:
 - Brigham & Women's Hospital
 - Children's Hospital
 - Dana-Farber Cancer Institute,
 - Harvard Medical School
 - Harvard School of Public Health
 - Harvard School of Dental Medicine
 - Beth Israel Deaconess Medical Center

- ▶ Companies such as Merck and Pfizer Centers for Therapeutic Innovation (CTI), & close proximity to Boston's new Digital Health Care Innovation Hub

SOUTH BOSTON WATERFRONT

Latest and Greatest

- ▶ The South Boston Waterfront spans 1,000 acres, featuring:
- ▶ The fastest growing innovation cluster with more than 250 new companies and over 5,000 new jobs since January 2010
- ▶ Industry giants like Vertex Pharmaceuticals and Dana Farber's Molecular Cancer Imaging Facility
- ▶ Companies pioneering innovation within the Life Sciences such as CureMeta, GinkgoBioWorks, Immunetics, Emulate, and Orig3n

“Boston's innovation economy is thriving, with leaders from government, industry, the non-profit sector and academia engaged in making the City a place where life sciences and other companies want to start, stay and grow.”

Dr. Jeffrey Leiden, M.D., Ph.D., Chairman, President and CEO, Vertex

ALLSTON /BRIGHTON

The Connector

- ▶ Boston's Allston/Brighton neighborhood serves as the connector, a gateway to Harvard University's expanding Allston campus and the area's cross-cutting research and innovation community

The neighborhood is home to:

- ▶ Industry leader Genzyme, a fully owned subsidiary of Sanofi, featuring:
 - Genzyme's main protein manufacturing facility
 - One of the world's largest cell-culture manufacturing plants with 6 bioreactors, 2 cell culture halls, manufacturing, and an underground cogeneration plant

LIFE SCIENCES CORRIDOR

- ▶ **Boston** joins 4 other cities as part of the Life Sciences Corridor
- ▶ All **5 cities** are easily accessible by major highways and public transportation network
- ▶ Logan International Airport is just **15 minutes** away
- ▶ Home to over **450 companies** within the Life Science Industry Cluster

SOUTH END

Heart of Academic & Medical Community

The South End is home to:

- ▶ Boston University's BioSquare Research Park featuring the National Emerging Infectious Diseases Lab, Boston Medical Center, and Boston University's Medical Center and Charles River Campus
- ▶ BioScience Academy's Workforce training center that provides unemployed Bostonians with STEM and biotechnology laboratory skills, Boston University credits, and a Certificate in Applied Biotechnology. Created by Boston University and the City of Boston with funding by the U.S. Department of Labor

CHARLESTOWN

Your Next Move

The Charlestown Navy Yard is home to Massachusetts General Hospital's Clinical Research Center and Spaulding Rehabilitation Hospital, with potential growth opportunities along the Rutherford Avenue Corridor.

“Our Charlestown location is ideal for collaborating with other Boston-based technology leaders, ensuring we're leveraging the best technologies available to improve new drug development.”

Jim Corrigan, President and CEO, ERT.

HYDE PARK

Your Next Move

Hyde Park's Readville Yard 5 features 375,000 square feet of industrial and commercial space spread across seven buildings. This transit-oriented site is accessible by train via the Fairmount Commuter Rail with easy access to Rt. 95 and vehicular and bicycle parking

The **Life Sciences Corridor** is sustained by skilled labor force availability, access to leading universities, the existence of established innovative research and development districts, proximity to major research hospitals, and presence of venture capital resources, all within the world's leading life sciences cluster. Companies located in these cities are also able to take advantage of funding programs offered by the Massachusetts Life Sciences Center, backed by a ten-year, \$1 billion state investment initiative.
