OVERVIEW

The Boston Transportation Department received applications from 47 communities by the March 24 deadline. Several communities did not provide clearly marked maps of their zones, so we asked for clarification. Ultimately, three did not provide a map of a zone with boundaries; we were unable to evaluate their applications. Another three communities applied with non-contiguous areas. We evaluated each of those areas individually. As a result there are 47 separate zones submitted by 44 communities.

OVERVIEW

PROPOSED ZONES

- AA | Adams Corner / Saint Brendan's / Cedar Grove
- AB | Andrew Square - City Side 1
- AC | Andrew Square - City Side 2
- AD | Ashmont Area
- AE | Ashmont St / Neponset
- AF | Beacon Hill 1
- AG | Beacon Hill 2
- AH | Bloomfield Park
- AI | Castle Square Apartments
- AJ | Central Jamaica Plain
- AK | Charlestown
- AL | Charlestown Neighborhood Council
- AM | Chinatown
- AN | City Point
- AO | Corey - Weld
- AP | Cummins Corridor Civic Association
- AQ | Edgewater Neighborhood Association
- AR | Fenway
- AS | Grove Hall / Quincy Corridor
- AT | Harbor View
- AU | Highland Park
- AV | Hobart Park
- AW | Jeffries Point
- AX | Longfellow Area
- AY | Lower South Street Neighborhood
- AZ | Melville Park
- BA | Metropolitan Hill / Beech Street
- BB | Moreland St and Mount Pleasant Ave Historic Districts
- BC | Moss Hill
- BD | Mount Hope / Canterbury
- BE | Neponset Ave / Philbrick / Wyvern Sts Association
- BF | North Allston
- BG | Old Dover Neighborhood Association
- BH | Orchard Gardens Estates
- BI | Orient Heights
- BJ | Parkside Neighborhood
- BK | Pleasant, Sumner, and East Cottage St Area
- BL | Readville 1
- BM | Readville 2
- BN | River Street Corridor
- BO | Roxbury High District
- BP | Saint Vincent's Lower End
- BQ | Savin Hill
- BR | Sugar Hill
- BS | United Neighborhood Association, Four Corners
- BT | West of Washington Coalition
- BU | Woodbourne Neighborhood Association

Sources: City of Boston; BPDA

OVERVIEW

SELECTED ZONES

We are pleased to announce the five communities who will join the Neighborhood Slow Streets Program in 2017:

- ▶ Chinatown
- ▶ Grove Hall / Quincy Corridor
- ▶ Highland Park
- ▶ Mount Hope / Canterbury
- ▶ West of Washington Coalition

EVALUATION CRITERIA

We assessed each zone using the objective criteria that were described on our web page and in the application materials. We expected that the higher-scoring zones would be those selected for the program. Our criteria were:

- ▶ Community support, as evidenced by letters of support, a presentation, signed petitions, surveys, and/or neighborhood reports or audits
- ▶ Percentage of households with children under 18
- ▶ Percentage of population aged 65 and above
- ▶ Presence of schools, parks, community centers, libraries, and public housing
- ▶ Proximity to rail transit and bus routes
- ▶ Identified walking or bicycling routes to schools or other bicycle routes identified in master plans
- ▶ Crash history, including total number of crashes and number of crashes that resulted in fatal or serious injuries
- ▶ Clear, strong boundaries to the neighborhood zone
- ▶ Geographic diversity of selected neighborhoods
- ▶ Feasibility of the City to implement improvements

Throughout the process, we needed to differentiate between streets that are in the zone and streets that create a boundary to the zones. Zone streets are local, residential streets, that generally have no more than one lane in each direction, and typically do not have a double yellow centerline. Boundary streets are the larger streets that, generally, surround the zones. Through this program, we are only able to make changes to zone streets.

We weighted the criteria, to emphasize locations with more children and older adults. The criteria related to strong boundaries, geographic diversity, and feasibility were held until we understood how the zones scored on the other criteria.

The following pages include information about our evaluation process. They include descriptions of each criterion, descriptions of each sub-category, details about how they were weighted, and maps and charts for each relevant category.

On maps and graphs, selected zones are indicated with a dark blue.

GRAPH OF SCORES

- Percentage of households with children under 18
- Fatal or injury crashes on streets in the zone
- Percentage of population aged 65 and above
- Fatal or injury crashes on boundary streets
- Community places
- MBTA rail transit or key bus routes within .5 miles
- Stakeholder letters
- Zone edges with bus routes
- Presentation or conversation
- Streets in zone identified as walking and biking routes in master plans
- Petition
- Report or other

VULNERABLE USERS

Children, older adults, and people who are walking or bicycling tend to suffer disproportionately in crashes. Because they are more likely to be seriously injured or killed, we are prioritizing traffic calming in areas where we expect there to be more children, older adults, and people walking or bicycling on our streets:

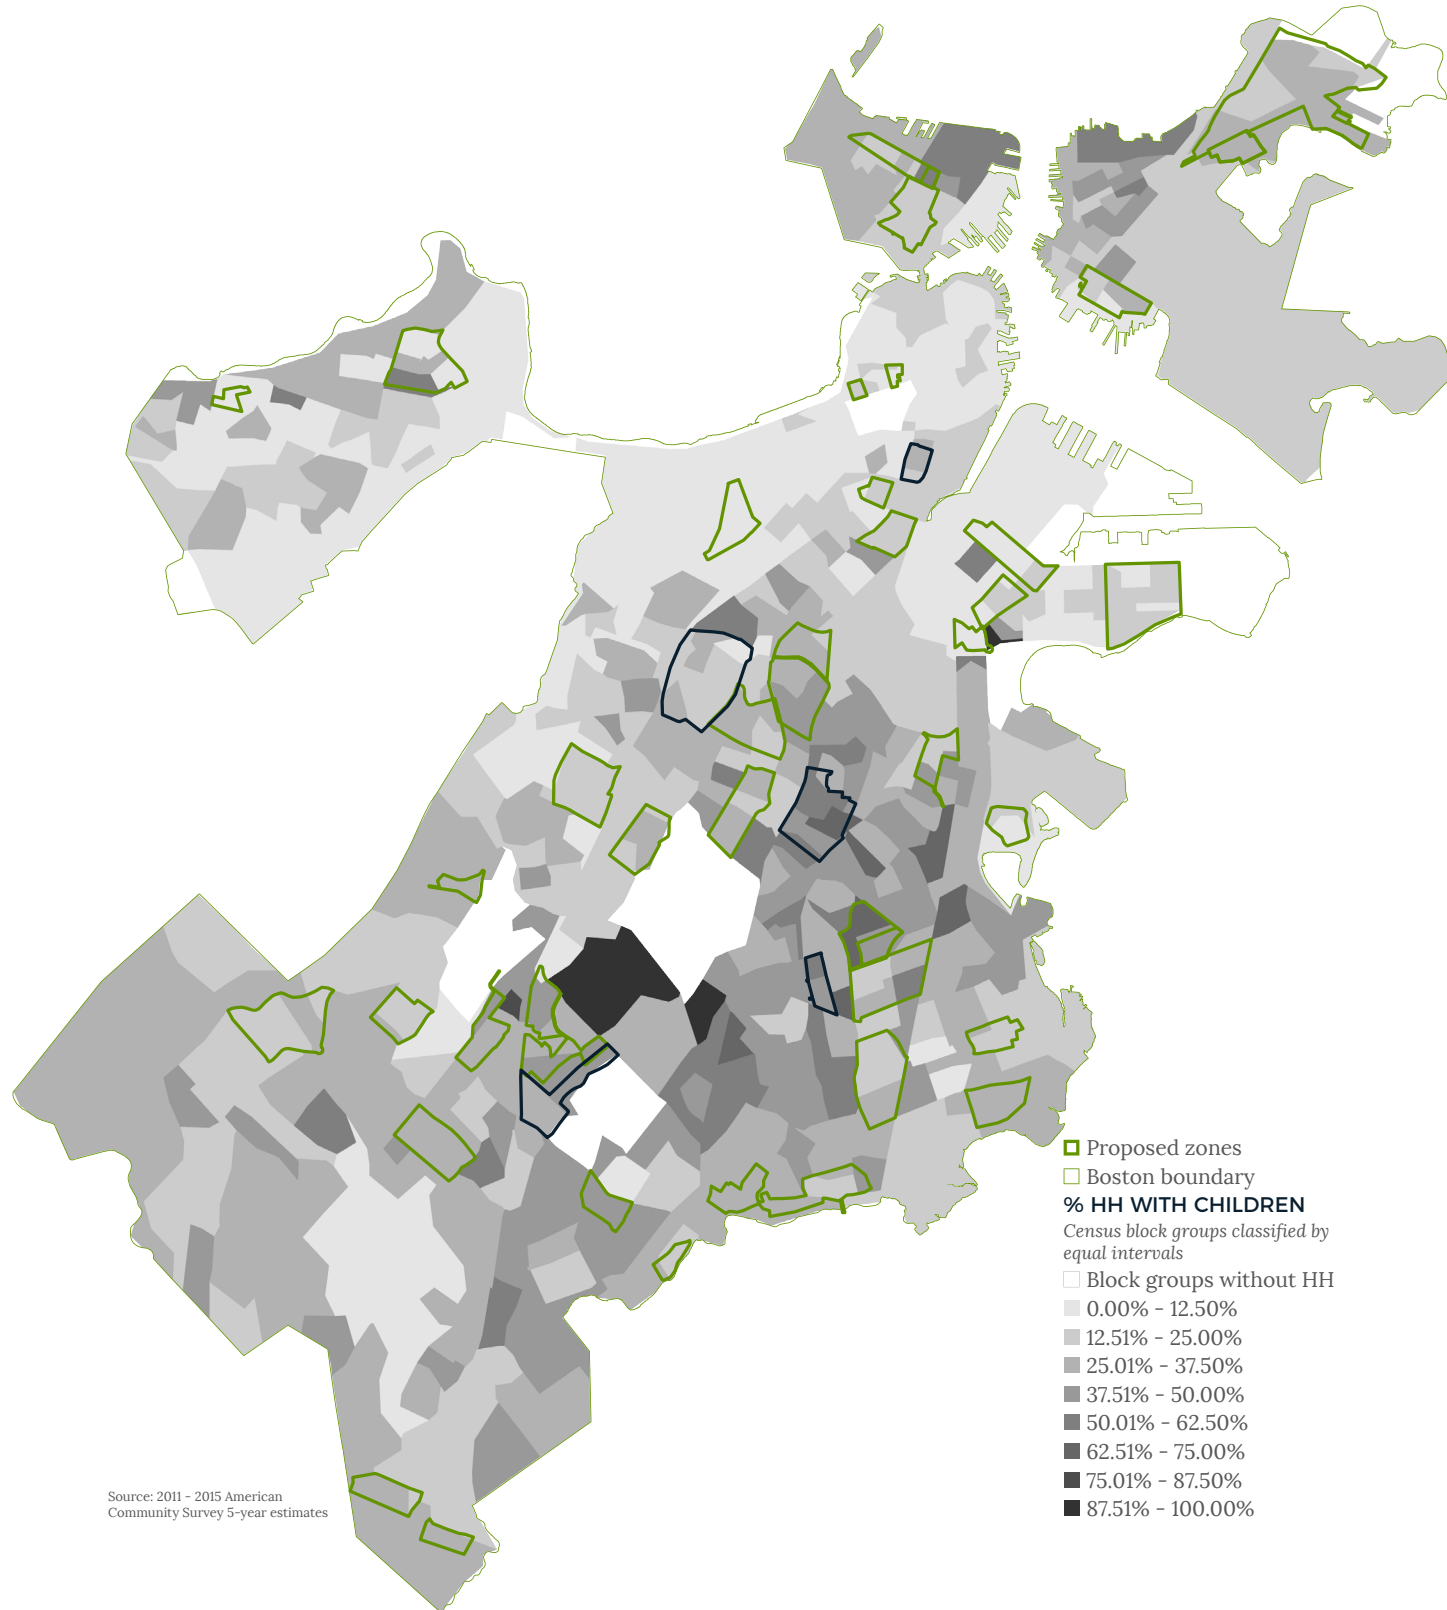

- ▶ neighborhoods with higher percentages of households with children
- ▶ neighborhoods with higher percentages of older adults
- ▶ near community places, including schools, parks, Boston Centers for Youth and Families, Boston Public Libraries, and public housing communities

VULNERABLE USERS

PERCENTAGE OF HOUSEHOLDS WITH CHILDREN UNDER 18

POINTS: 1.5 * [percentage of household with children under 18]

We determined the percentage of households with children by using the 2011-2015 American Community Survey 5-year estimates. For block groups that intersect each zone, the number of households with children was summed, then divided by the total number of households in those block groups. While block groups do not perfectly align with all proposed zones, this is the most complete, accurate, and recent data available.

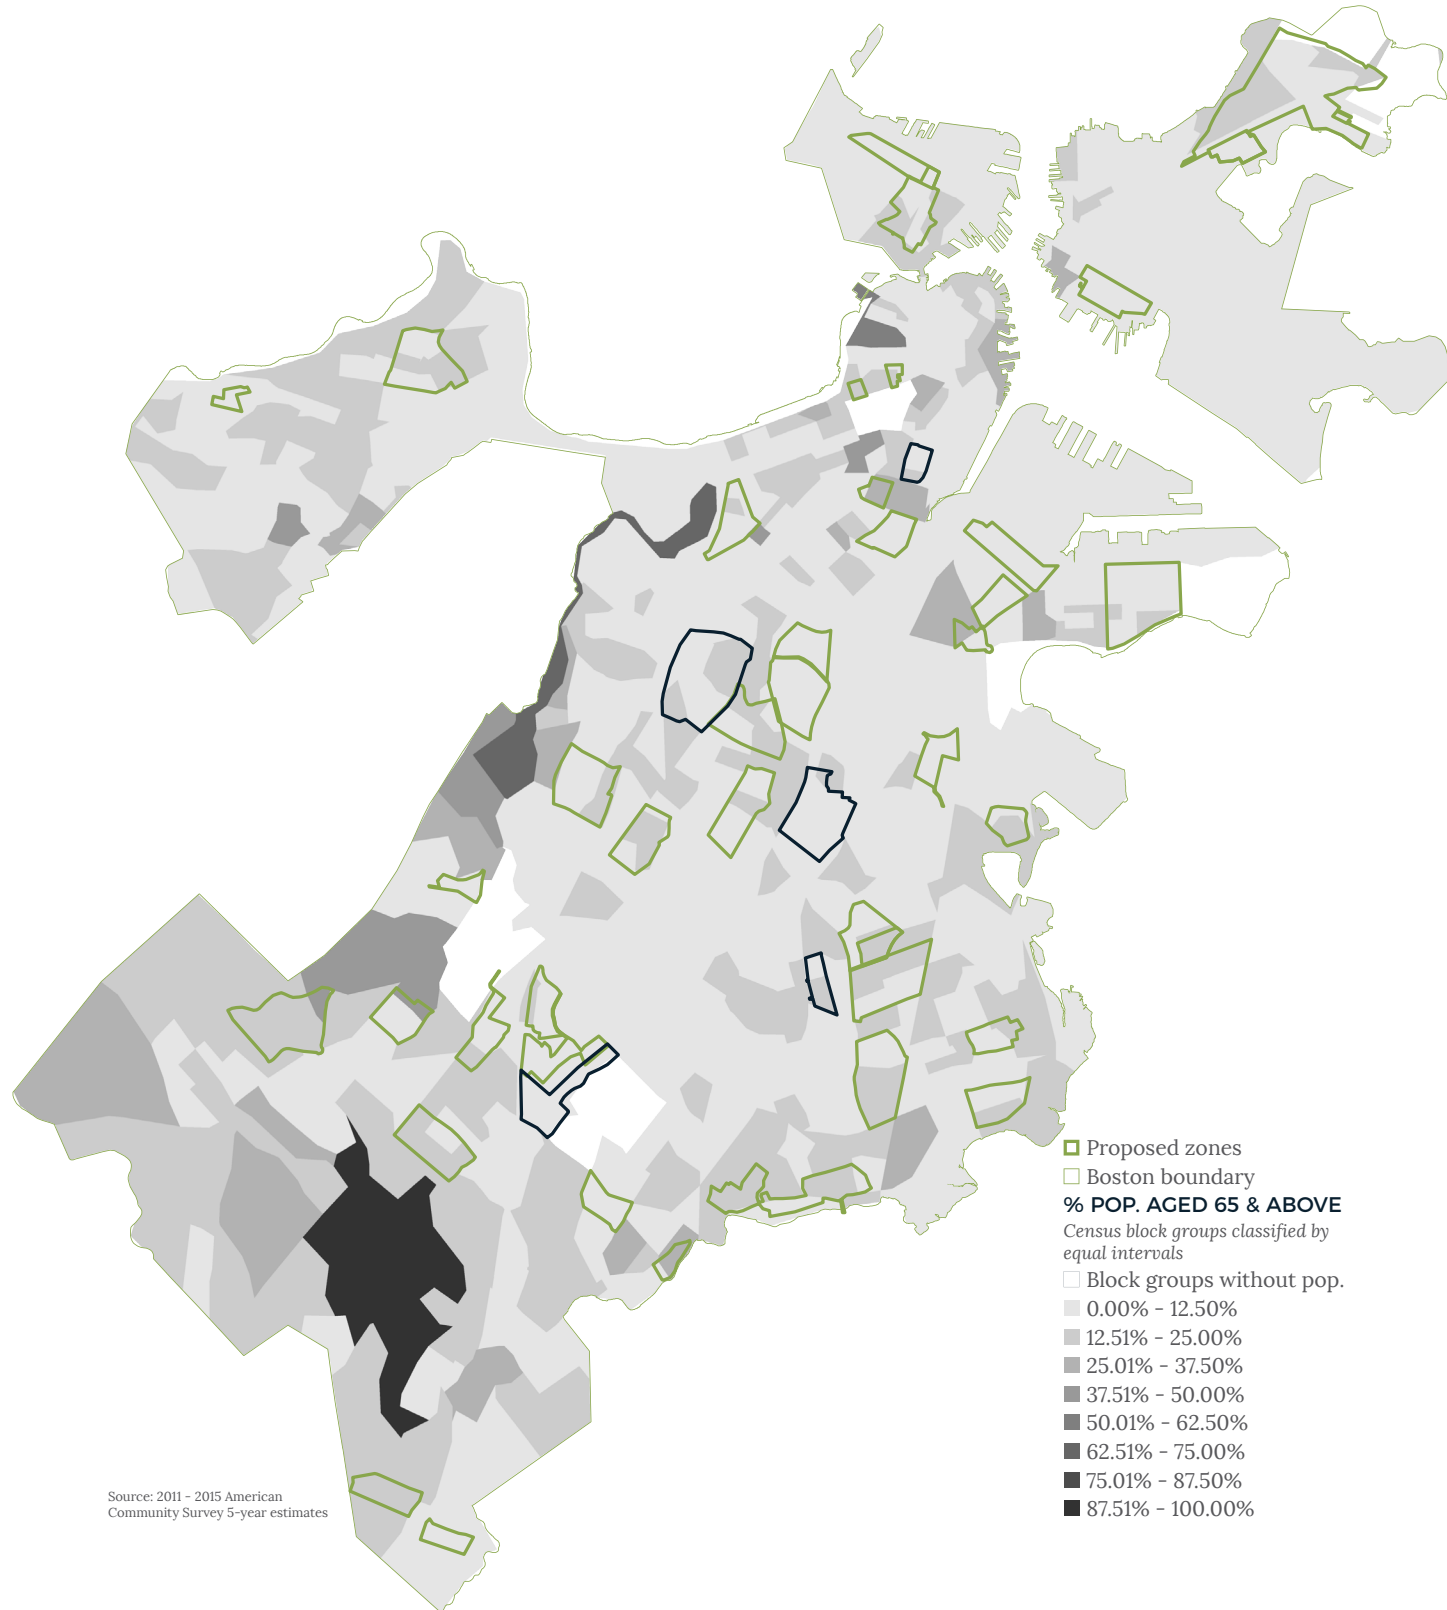

Source: 2011 - 2015 American Community Survey 5-year estimates

VULNERABLE USERS

PERCENTAGE OF POPULATION AGED 65 AND ABOVE

POINTS: 1.5 * [percentage of population aged 65 and above]

We determined the percentage of the population aged 65 and above by using the 2011-2015 American Community Survey 5-year estimates. For block groups that intersect each zone, the number of people aged 65 and above was summed, then divided by the sum of the total number of people in those block groups. While block groups do not perfectly align with all proposed zones, this is the most complete, accurate, and recent data available.

VULNERABLE USERS

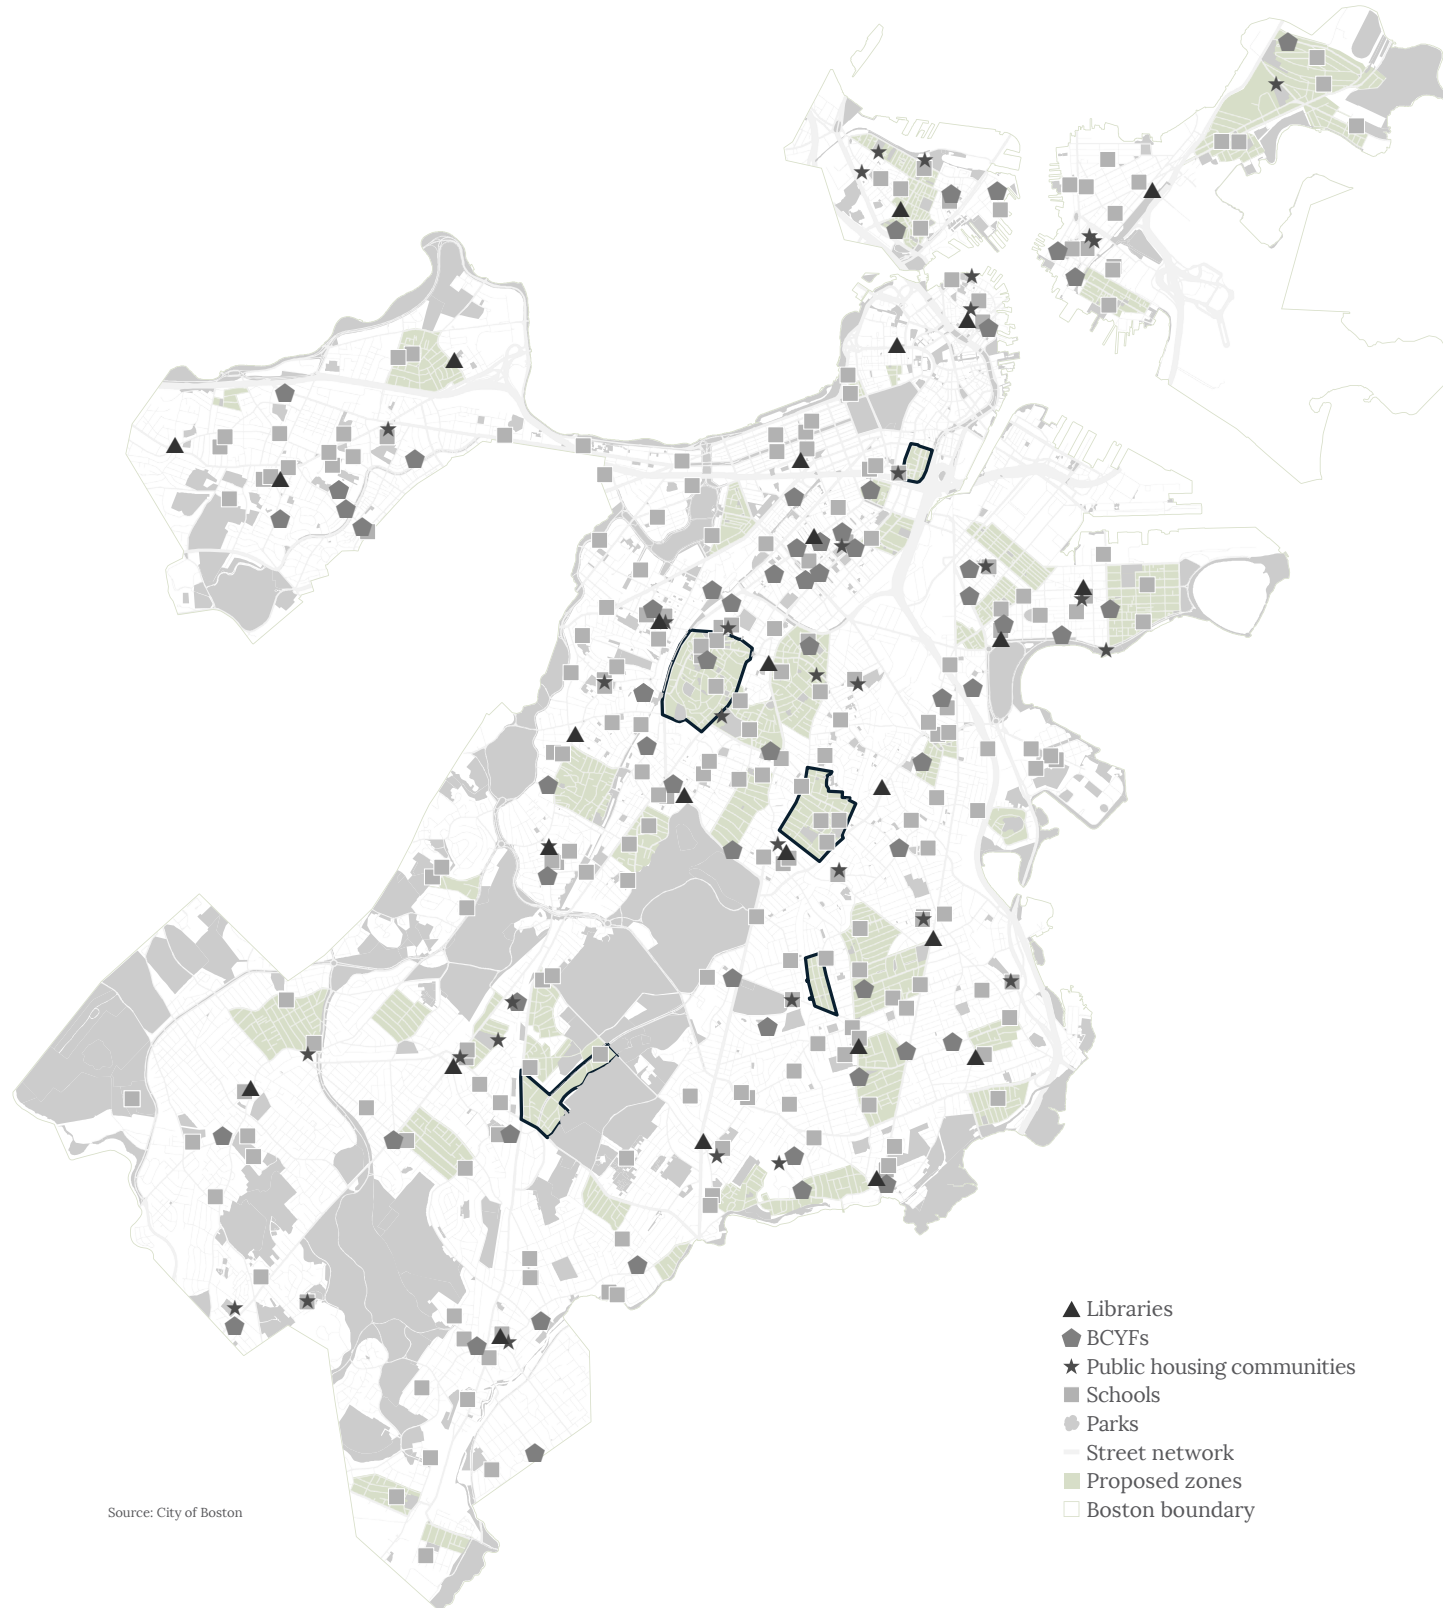

COMMUNITY PLACES

POINTS: 5 * [the number of community place types]

We used GIS layers, maintained by the City of Boston's GIS team within the Department of Innovation and Technology, to identify the following types of facilities:

- ▶ public and private grade schools
- ▶ parks
- ▶ Boston Centers for Youth and Families
- ▶ Boston Public Libraries
- ▶ public housing communities

For our purposes, a facility counted if it was located on a street within the zone or on a boundary street. We did not include facilities that were located across two boundary streets (kitty-corner to the zone).

Number of community places

Source: City of Boston

COMMUNITY SUPPORT

The application process required neighbors to talk directly with each other about their concerns. We wanted to be sure that the applications represented many neighbors' interests, not just a few.

COMMUNITY SUPPORT

STAKEHOLDER LETTERS

POINTS: 2 * [the number of letters]

Stakeholder letters are letters from people who represent an organization, civic, or community group. These letters served to help us understand how many community organizations, businesses, institutions, or other local leaders are in support of the proposal.

COMMUNITY SUPPORT

PRESENTATION OR CONVERSATION

POINTS: 5 if presentation or discussion occurred, 0 if not

Applicants were asked to have a conversation about the Neighborhood Slow Streets program during a meeting with their neighbors. Some people held formal presentations with slides, while others held a group discussion about the program.

COMMUNITY SUPPORT

PETITION

POINTS: 3 points if a petition was provided, 0 if not

Petitions are one way to show that community members are informed about and support this program. Given the varying sizes of the zones, and the fact that petitions were optional, we did not count the number of people who signed.

COMMUNITY SUPPORT

REPORT OR OTHER

POINTS: 3 points if a report or other was provided, 0 if not

Some neighborhoods took extra steps to relay information that is helpful for us to know before beginning the planning process. Examples included community surveys that gathered people's individual concerns or informal studies of traffic patterns.

CRAASH HISTORY

Our commitment to Vision Zero means proactively working to reduce the number and severity of traffic-related crashes on our streets. Neighborhood Slow Streets applies this commitment to our local, mostly residential streets. We looked at data provided by Boston Emergency Medical Services (EMS) and the Boston Police Department (BPD) to prioritize higher-crash areas in our overall evaluation.

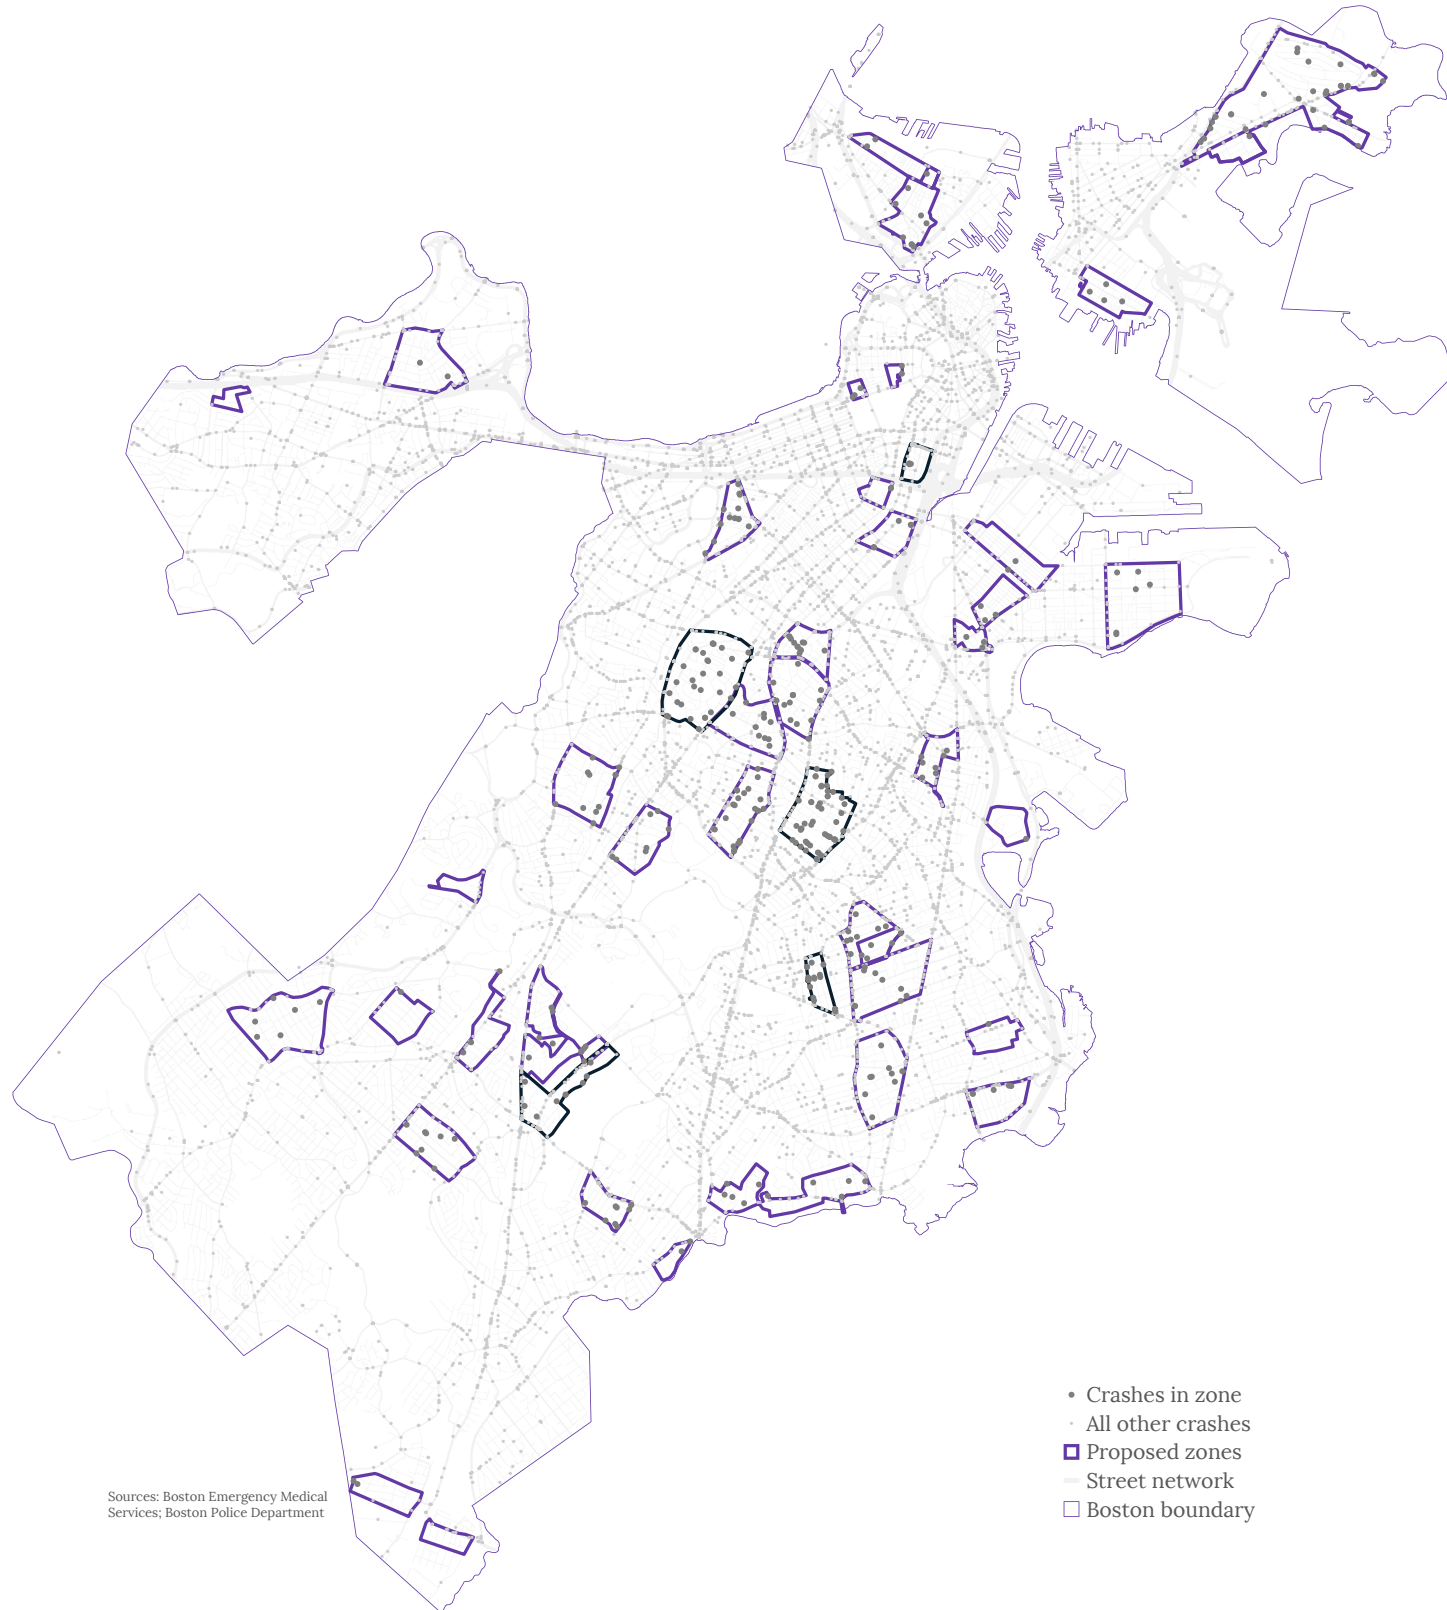

EMS and BPD provided the locations of crashes that resulted in injuries or fatalities, and occurred between June 1, 2014, and December 31, 2016. Crashes located within 25 ft of a boundary street were classified as a boundary crash. All other crashes were considered to be on zone streets. The zones vary in size, so we normalized the number of crashes by dividing by the number of relevant street miles.

CRASH HISTORY

FATAL OR INJURY CRASHES ON STREETS IN THE ZONE

POINTS: $5 * [\text{crashes on streets in the zone}] / [\text{miles of streets in the zone}]$

The Neighborhood Slow Streets program targets local streets, not major ones. In our weighting, we emphasized fatal and injury crashes that occurred on streets within the zone.

CRASH HISTORY

FATAL OR INJURY CRASHES ON BOUNDARY STREETS

POINTS: $0.25 * [\text{crashes on boundary streets}] / [\text{miles of boundary streets}]$

Because this program is not intended to make changes to boundary streets, and large streets experience a higher number of crashes than local streets, crashes that took place on boundary streets were given significantly less weight. We wanted to ensure that the crashes on boundary streets were factored in, but did not influence the evaluation more than crashes on streets that we can address.

Three roads -- Quincy St, between Blue Hill Ave to Ceylon St; the South Boston Bypass Road, from West 2nd St to West Broadway; and the William F McClellan Highway, adjacent to Orient Heights -- were excluded from our safety analysis. Quincy St will be completely reconstructed in the near future. The new design for Quincy St already incorporates many traffic-calming tools, such as raised crosswalks and a gentle zig-zag in the road to slow drivers. Given the significant changes coming to the street, the previous crash history cannot be considered relevant to our evaluation process. The South Boston Bypass Road runs underground and does not connect with the cross streets. The William F McClellan Highway is a state-owned interstate, with few connections to the community. Crashes that happen on these two roads cannot be considered relevant to the evaluation process as they operate separately from the adjacent street network.

Sources: Boston Emergency Medical Services; Boston Police Department

PROXIMITY

TO ACTIVE TRANSPORTATION NETWORK

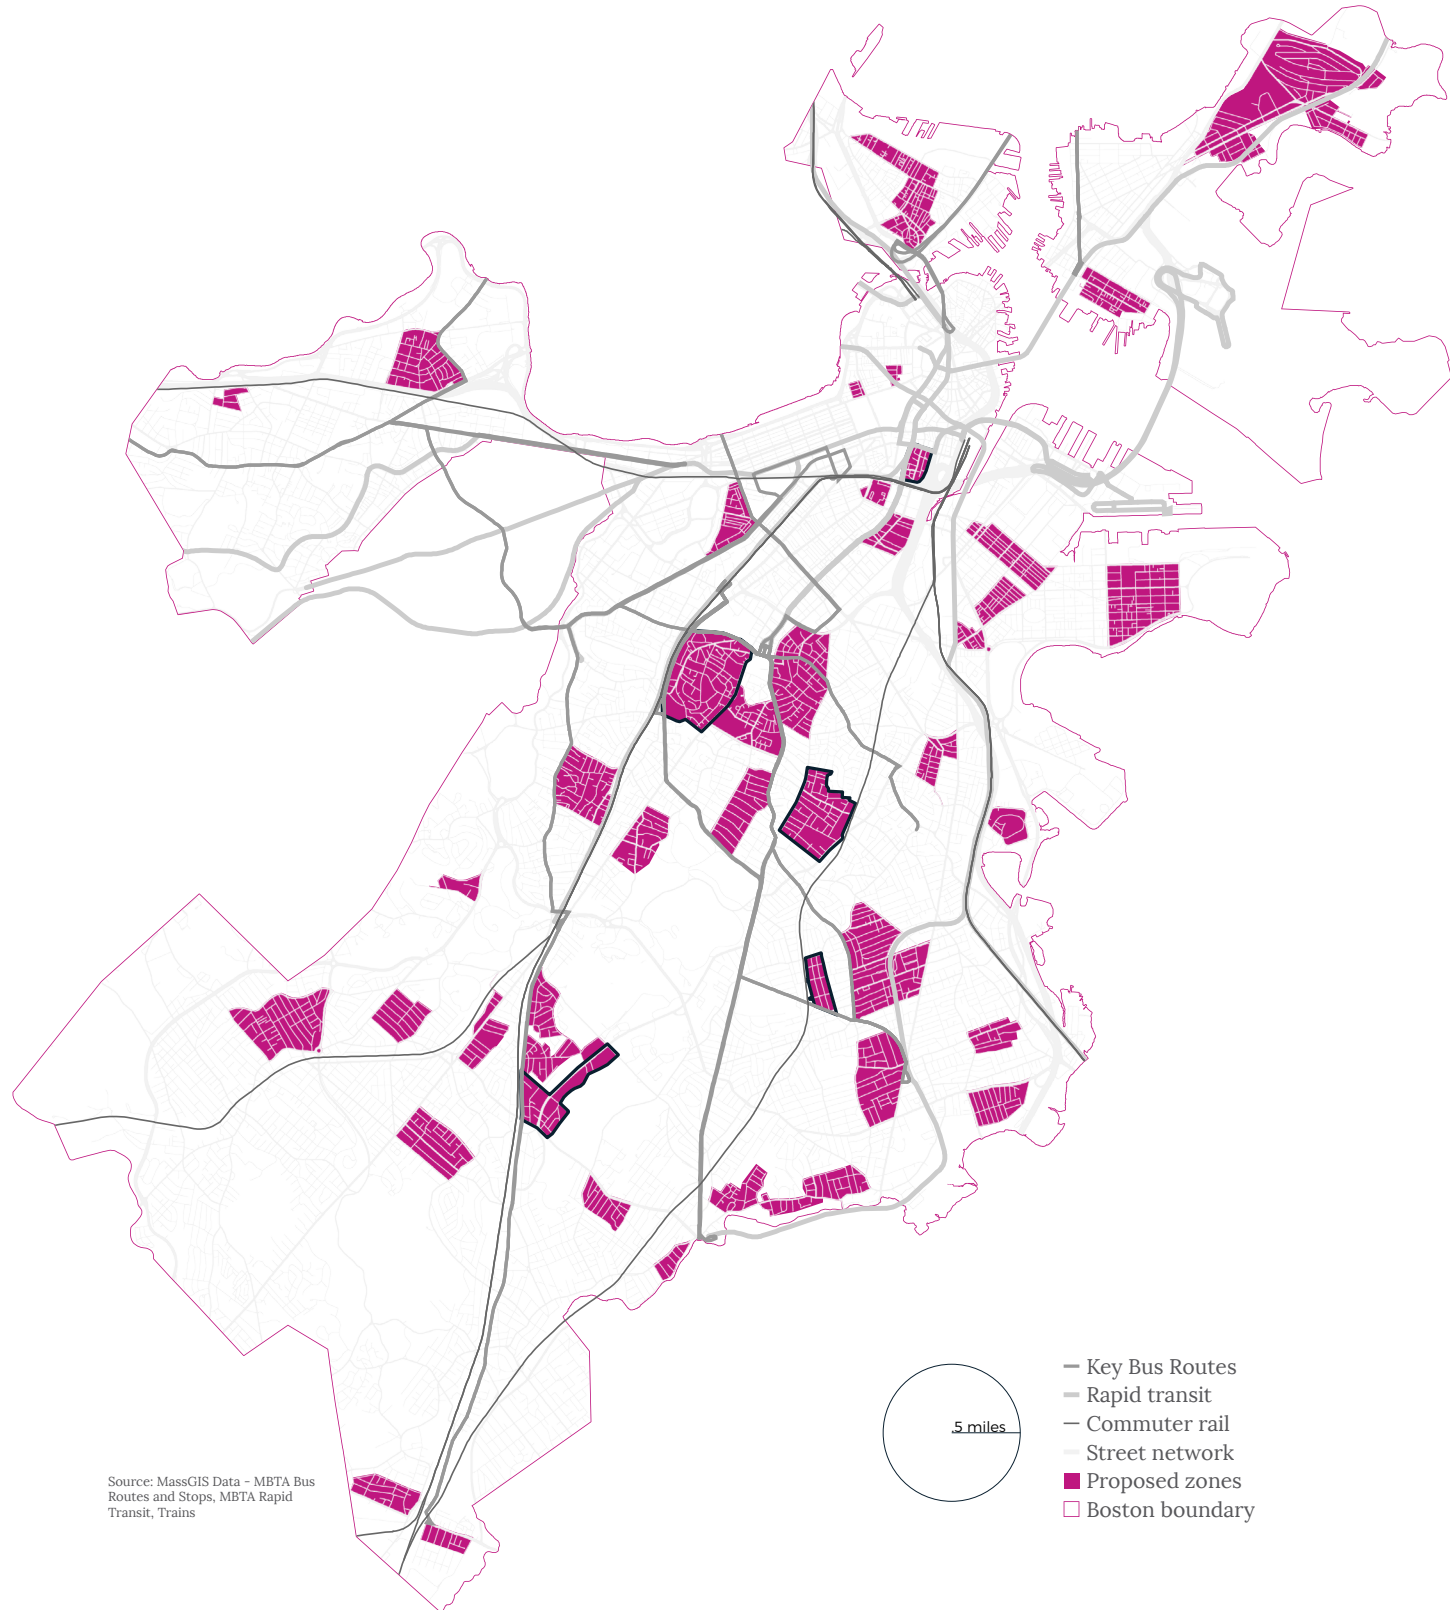

Even the smallest of local streets eventually connects into the larger transportation network. Making our residential streets more people-friendly by discouraging fast-moving drivers could mean that more people will choose to walk or bike to and from their destinations, including nearby bus stops and transit stations. Helping more people choose to walk or bicycle aligns with our Go Boston 2030 goals, as well as the goals established in more local plans.

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK

MBTA RAIL TRANSIT OR KEY BUS ROUTES WITHIN .5 MILES

POINTS: 3 * [the number of routes that make stops within .5 miles of the zone]

MBTA's Key Bus Routes and the rapid transit network provide frequent service along major corridors in Boston and neighboring municipalities. The Commuter Rail connects to neighborhoods within Boston and communities across eastern Massachusetts. We used GIS data provided by MassGIS to determine the number of Key Bus Routes and rail transit (Blue, Green, Orange, Red, Silver and commuter rail) lines that stop within .5 miles of each zone.

Number of routes that stop within .5 miles

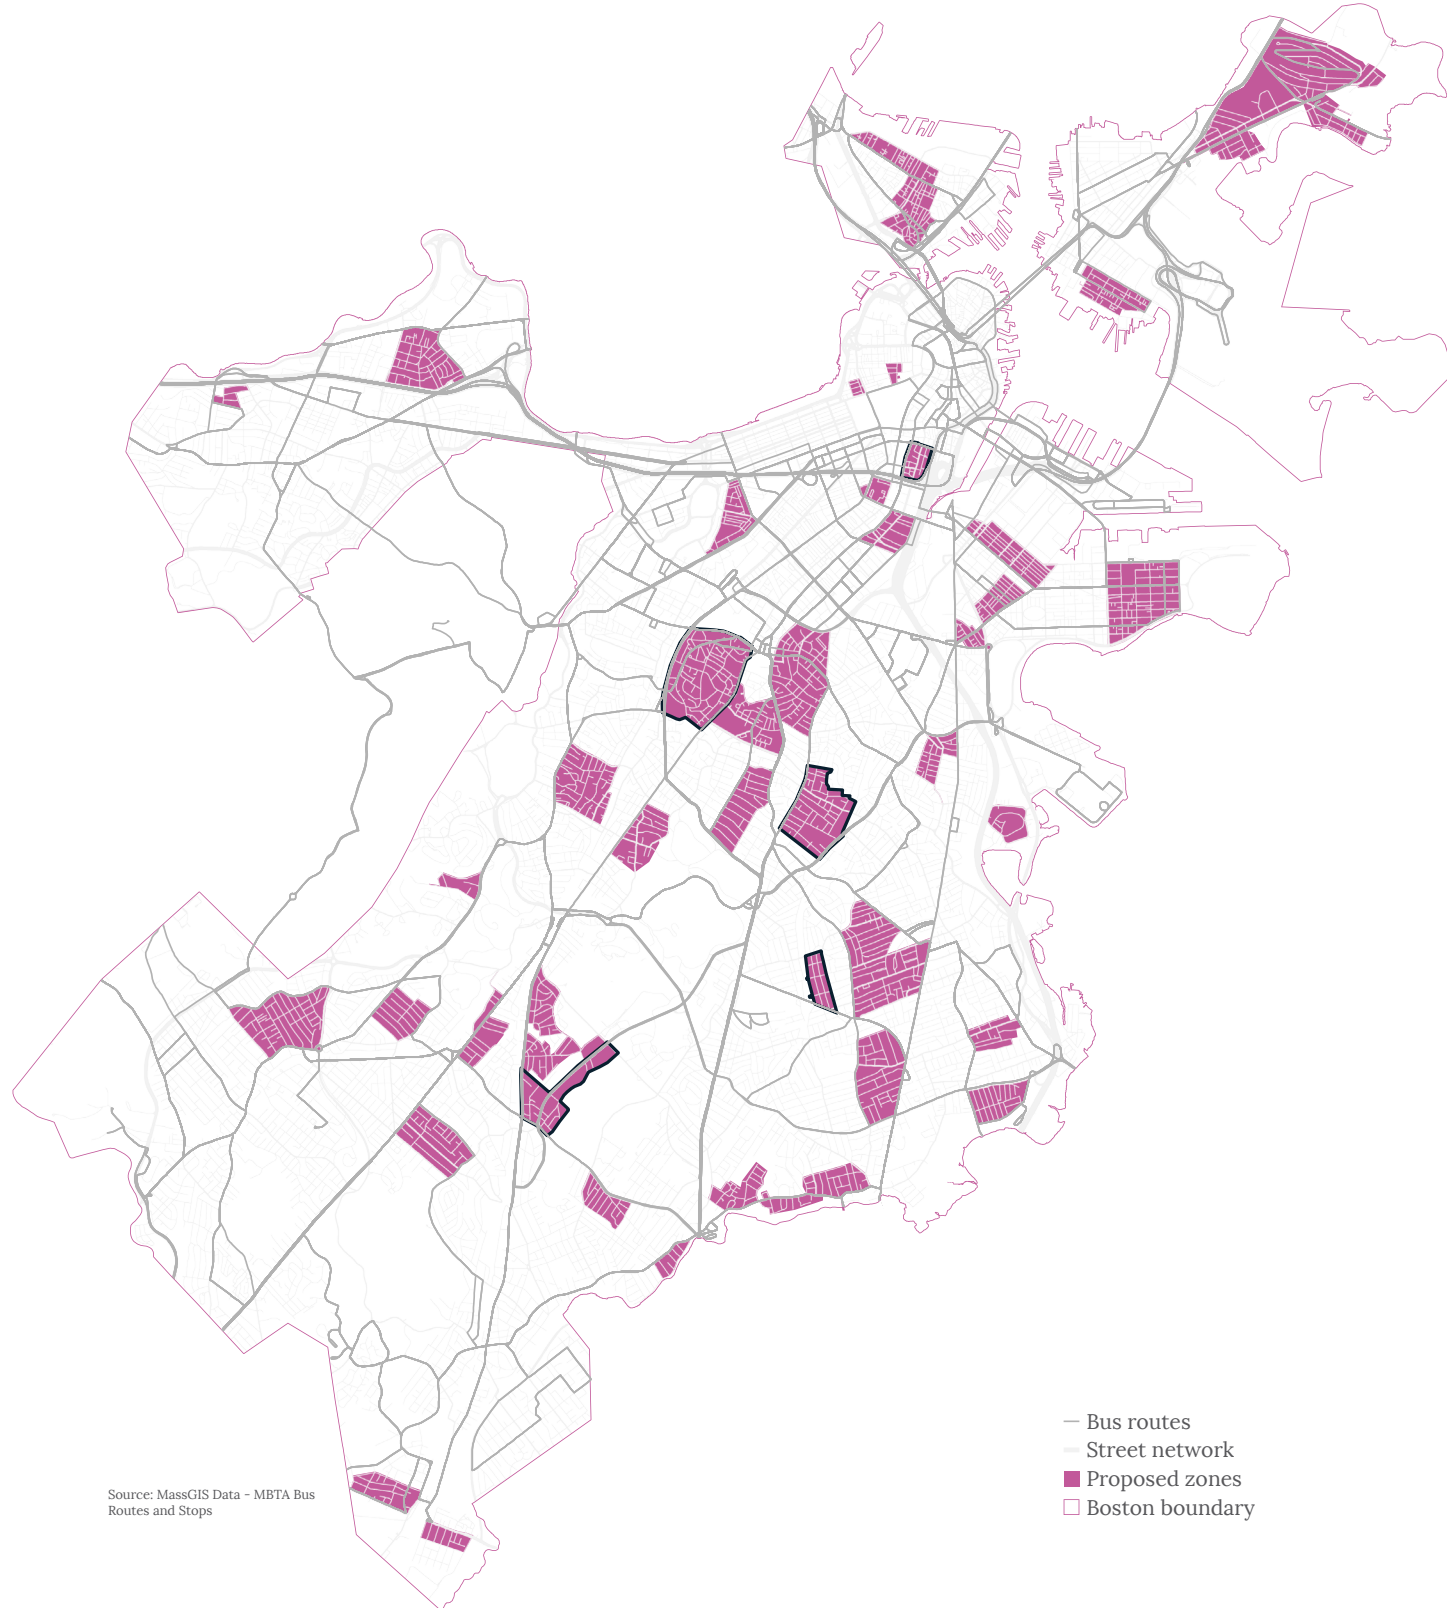

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK

ZONE EDGES WITH BUS ROUTES

POINTS: 1 * [number of edges with bus routes]

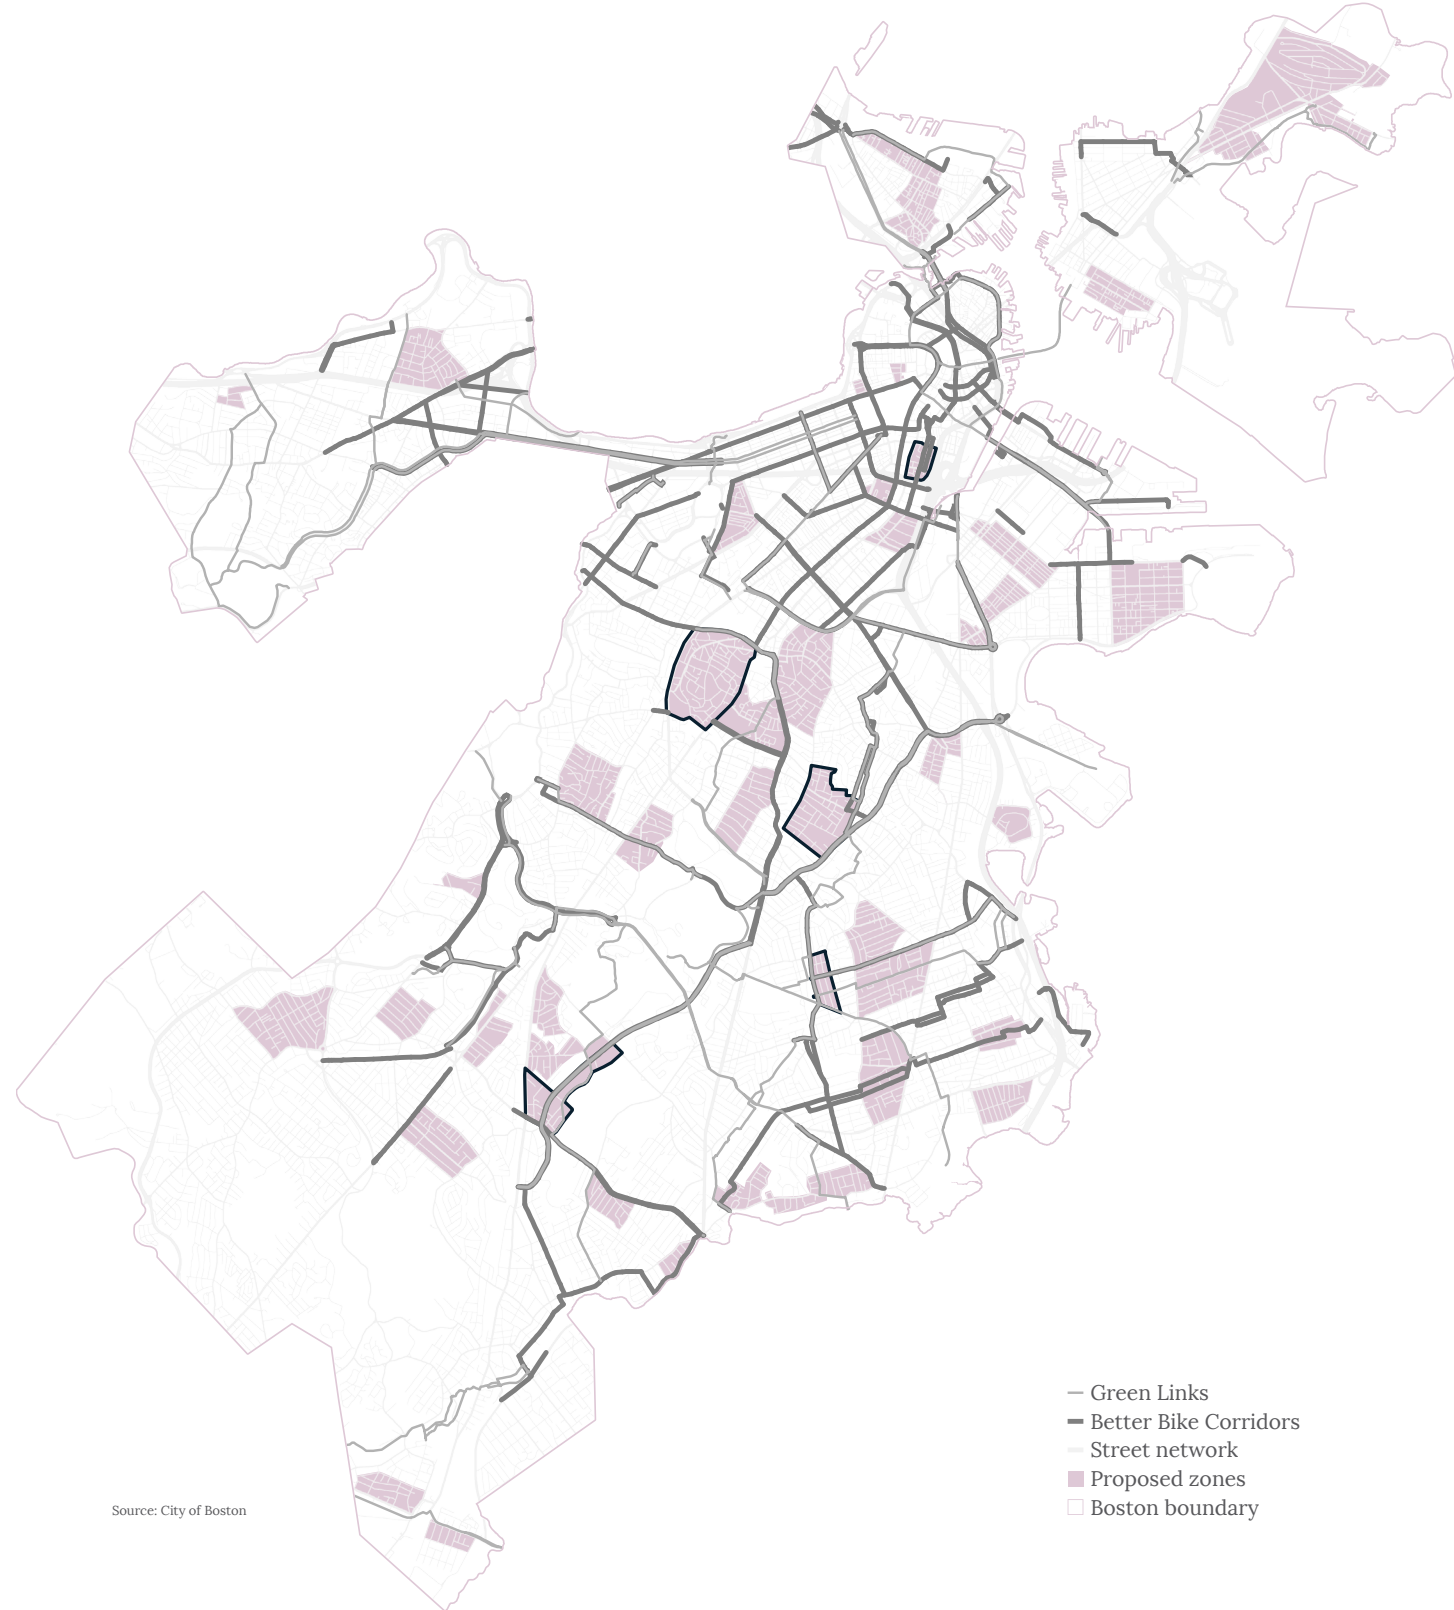

We used GIS data provided by MassGIS to map bus routes in Boston. We then looked at the streets on the edges of the zones to see if they served one or more bus routes. Every edge street that served bus routes was counted.

Number of edge streets with bus routes

Source: City of Boston

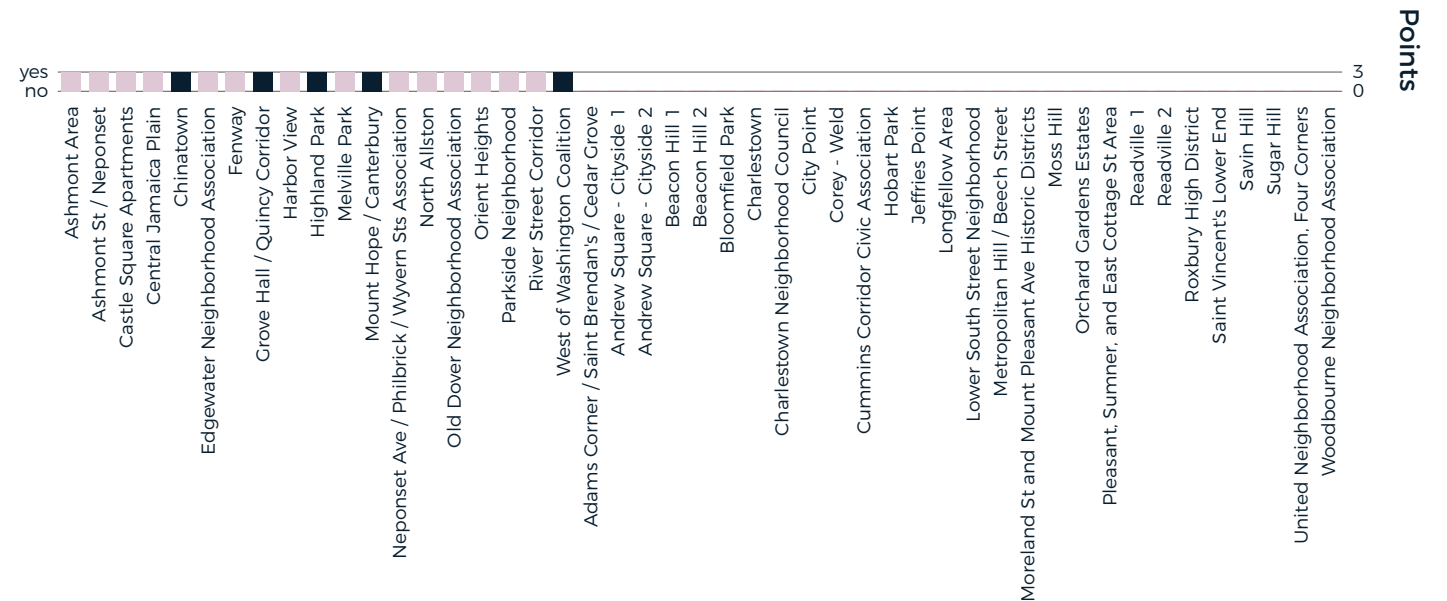

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK

STREETS IN ZONE IDENTIFIED AS WALKING & BIKING ROUTES IN MASTER PLANS

POINTS: 3 points if any planned route was within a zone, 0 if not

We used our Boston Bike Network and Green Links Network maps, which were included in the Go Boston 2030 Action Plan, to identify zones with streets that have been identified in the network plans.

Streets in zone identified as walking and biking routes?

SELECTION

We were happily surprised by the popularity of the program. We used our objective criteria to determine the score of each application. We considered only the top scoring zones for selection this year.

Of the 44 complete applications, the top 11 zones and their scores are:

1. Grove Hall / Quincy Corridor - 206.89
2. Chinatown - 202.65
3. West of Washington Coalition - 199.62
4. Highland Park - 190.79
5. United Neighborhood Association, Four Corners - 167.49
6. Sugar Hill - 164.79
7. Mount Hope / Canterbury - 164.05
8. Orchard Gardens Estates - 161.56
9. Moreland St and Mount Pleasant Ave Historic Districts - 161.46
10. Melville Park - 159.75
11. Ashmont Area - 159.74

SELECTION

FEASIBILITY

To select which of the five zones we can move forward with this year we had to consider the feasibility of each zone on its own and as part of a group. For individual zone feasibility, we considered: the zone boundaries, impacts on emergency responders, the location of bus routes, and known upcoming work that could impact our ability to construct changes in a timely manner.

CLEAR BOUNDARIES

The primary focus of this program is to calm traffic on local streets -- those with less vehicle traffic, are generally no more than one lane in each direction, and typically do not have a double yellow centerline. We want drivers who use these streets to recognize that they are guests and that they should travel slowly and carefully. When zones are bisected by larger streets or don't have clear boundaries, it is more difficult to signal to drivers that their behavior needs to change.

FIREHOUSES OR HOSPITALS WITHIN ZONE OR ON BOUNDARY

We do not want to design our streets so that emergency responders are significantly delayed or unable to provide the highest quality of City services. Planning in zones with firehouses or hospitals will require special coordination, and we may be limited in the tools that we can use in these zones. When emergency responders are located on the boundary of a zone, we may be able to develop a plan that has a very limited impact on their day-to-day operations.

BUS ROUTES WITHIN ZONE

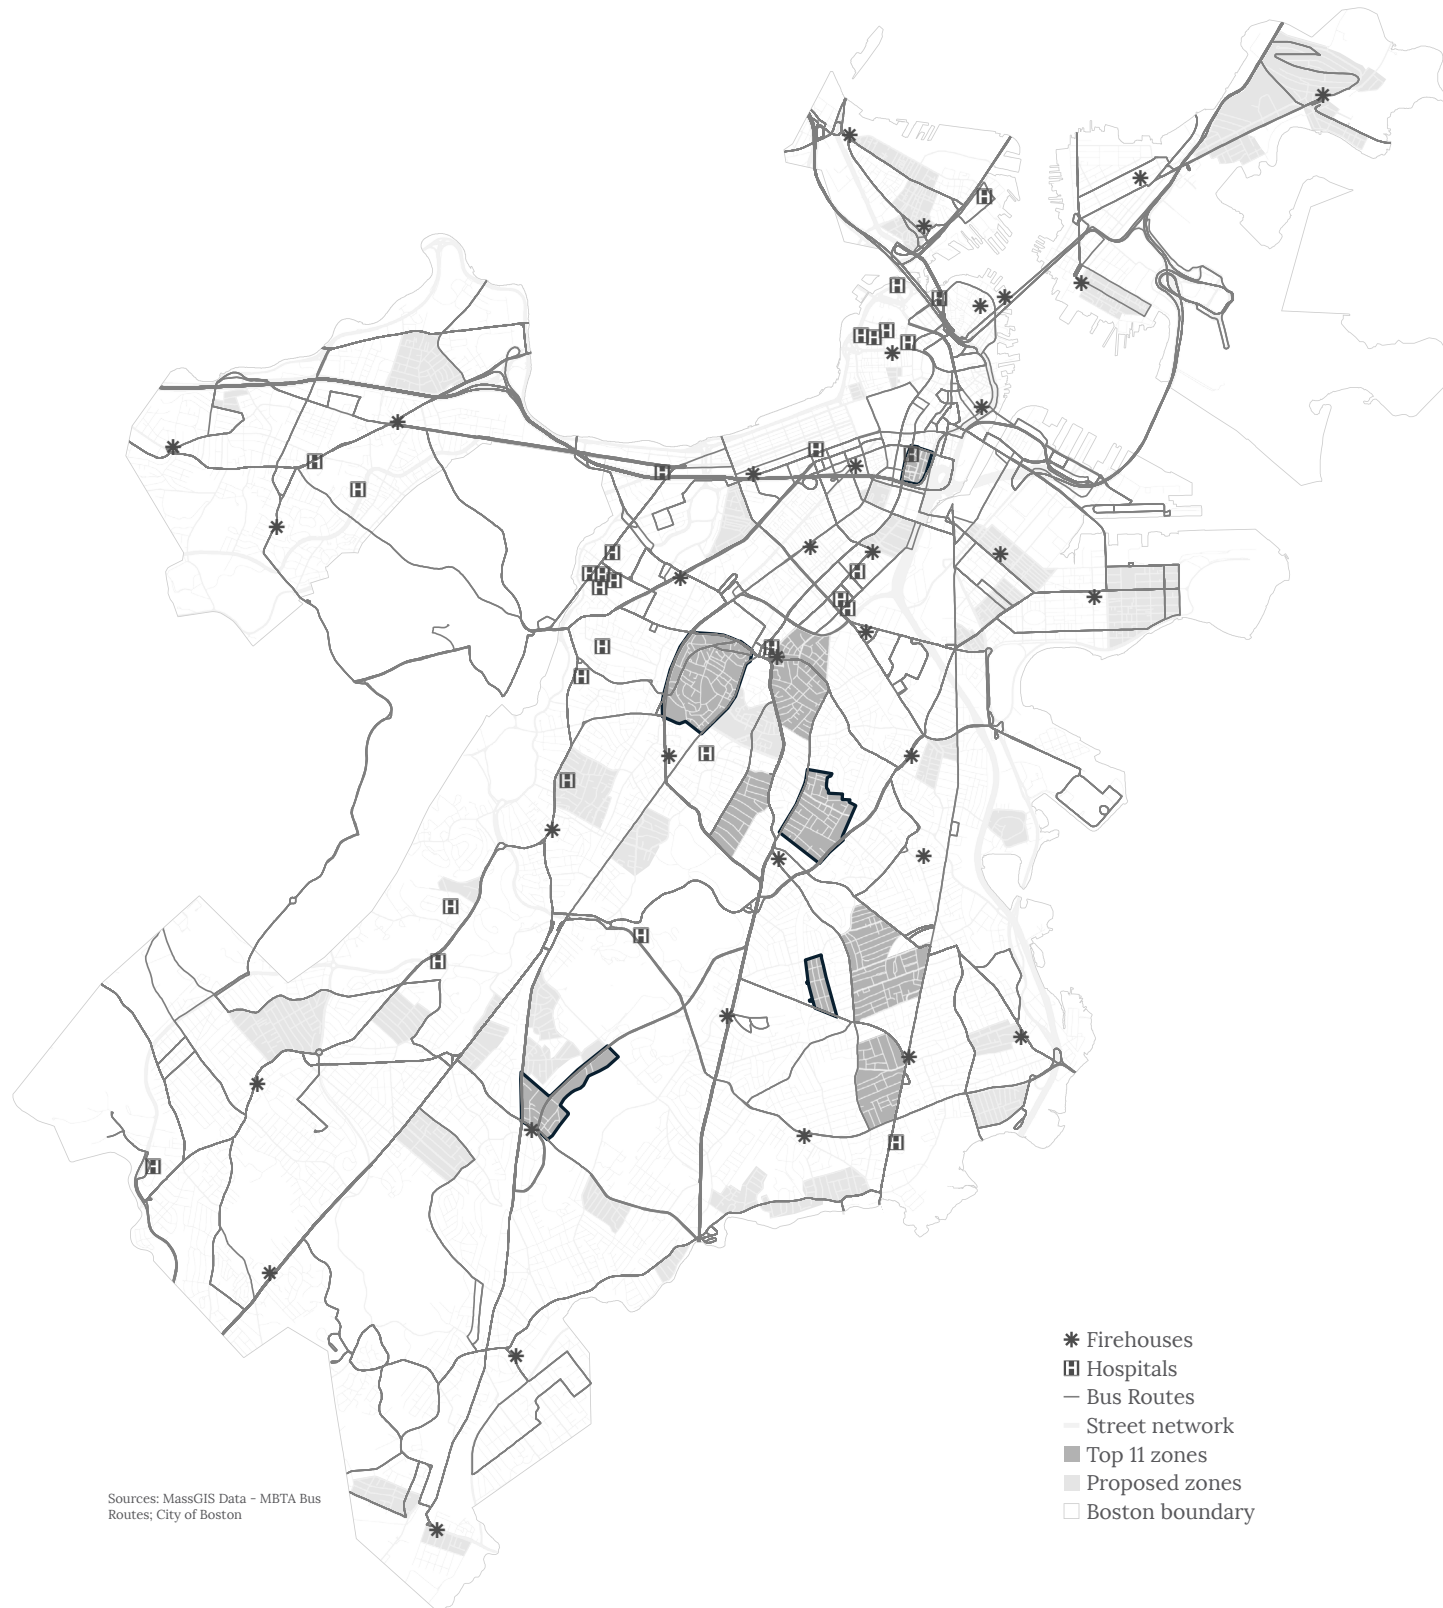

We want our work to minimize potential negative impacts on drivers and passengers, while maximizing the effectiveness of the traffic-calming tools. We are able to employ certain tools on bus routes, such as curb extensions, but others would negatively impact bus operations. If there are many streets with bus routes, the zone may not work as proposed.

GEOGRAPHIC SIZE

Our two pilot zones, Stonybrook and the Talbot-Norfolk Triangle, have 1.9 miles and 1.7 miles of streets respectively. The majority (70%) of the 47 proposed zones contain more than two miles of streets. Forty percent of the proposed zones contain more than 3 miles of streets, which is 50% more miles than our current zones. The number of miles of zone streets in each of the top eleven zones is:

- ▶ Grove Hall/Quincy Corridor - 5.2 miles
- ▶ Chinatown - 1.2 miles
- ▶ West of Washington Coalition - 2.1 miles
- ▶ Highland Park - 8.4 miles
- ▶ United Neighborhood Association, Four Corners - 3.4 miles
- ▶ Sugar Hill - 3.2 miles
- ▶ Mount Hope / Canterbury - 2.6 miles
- ▶ Orchard Gardens Estates - 2.3 miles
- ▶ Moreland St and Mount Pleasant Ave Historic Districts - 4.5 miles
- ▶ Melville Park - 5.0 miles
- ▶ Ashmont Area - 3.9 miles

Of the top 11 zones, the top four represent the two smallest and the two largest zones. Together they contain 16.9 miles of streets, for an average of 4.2 miles per zone.

SELECTION

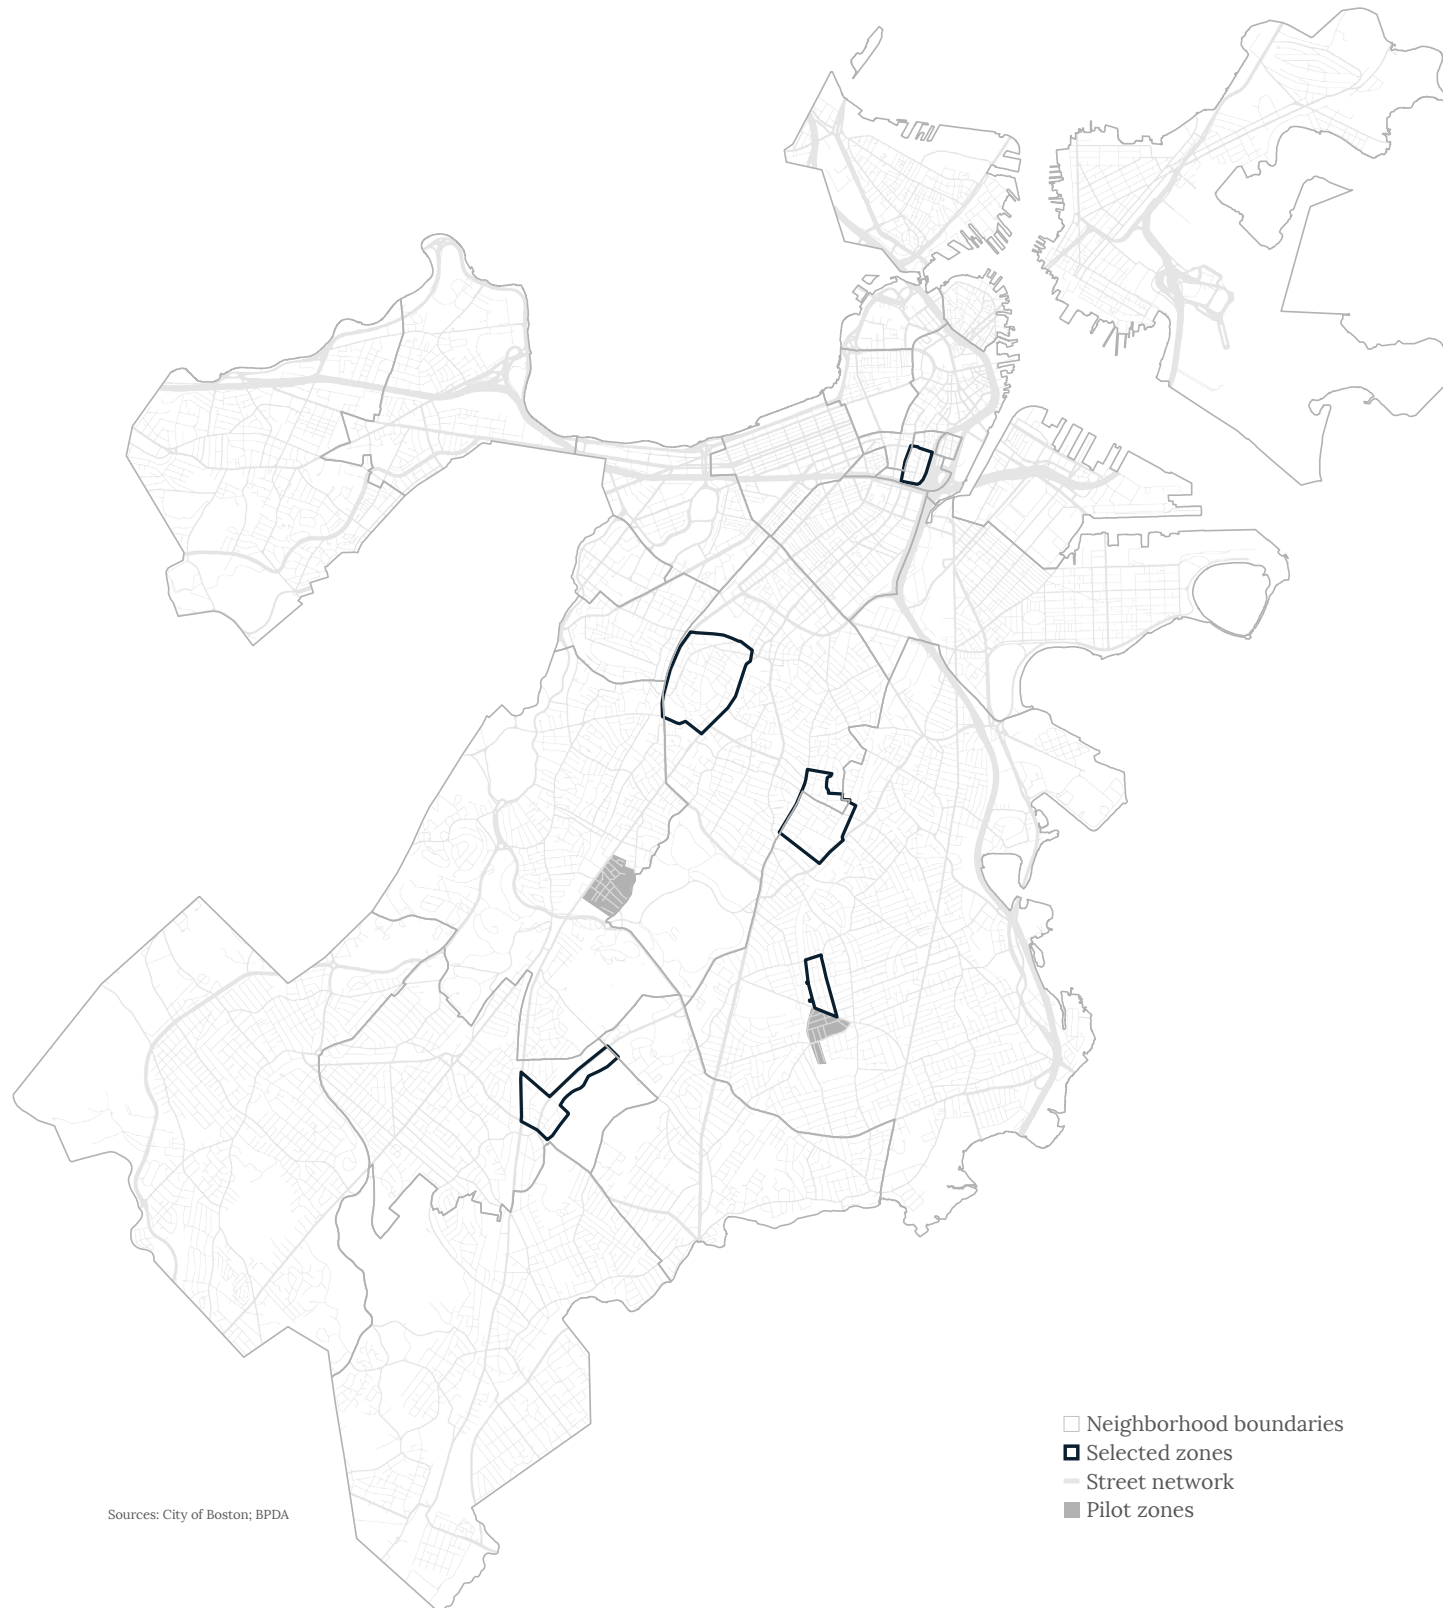

FINAL SELECTION

We reviewed each of the top-scoring zones in order, starting with the highest-scoring zone, Grove Hall/Quincy Corridor. Finding no conflicts or potential issues with feasibility, we felt that each of the top four (Chinatown, Grove Hall / Quincy Corridor, Highland Park, and West of Washington Coalition) should be part of the 2017 Neighborhood Slow Streets program.

Once we determined that, size played a significant role in our selection. With the available resources, our fifth zone needed to be more similar in scale to that of the pilot communities. Moving down the list, the Mount Hope/Canterbury zone is the next-highest scoring area (#7) that has fewer than 3 miles of streets. We are confident that this community is a fitting candidate for the program because: the area also has an above-average percentage of households with children and percentage of adults aged 65 and above; the community demonstrated a high level of support; and, though less important, this zone helps us achieve additional geographic diversity.

The five zones that will join the program in 2017 are

- ▶ Chinatown - 202.65
- ▶ Grove Hall / Quincy Corridor - 206.89
- ▶ Highland Park - 190.79
- ▶ Mount Hope / Canterbury - 164.05
- ▶ West of Washington Coalition - 199.62

FULL SCORE TABLE

In the following table, we've summarized the data and score information for each of the 47 proposed zones. We've also included the average score for each category and the overall average score.

ZONE NAME	Key for map of proposed zones	Vulnerable Users											Community Support								Crash History						Proximity to Active Transportation						Total Score
		Percentage of households with children under 18		Percentage of population aged 65 and above		Community places							Stakeholder letters		Presentation or conversation		Petition		Report or other		Fatal or injury crashes in zone		Fatal or injury crashes on boundary streets		MBTA rail transit or Key Bus Routes within .5 miles		Zone edges with bus routes		Streets in zone identified as walking & biking routes in master plans

APPENDIX

SCORE SHEETS FOR EACH ZONE

On the following pages, we've provided a score sheet for each of the 47 proposed zones, which includes the summarized data and score information.

ADAMS CORNER / SAINT BRENDAN'S / CEDAR GROVE

NEIGHBORHOOD: DORCHESTER

2017 RANK: 20 SCORE: 131.80

VULNERABLE USERS		POINTS
Percentage of households with children under 18	27.90%	41.85
Percentage of population aged 65 and above	16.30%	24.46
Community places	2	10.00
▶ public and private grade schools within zone or on boundary	yes	5.00
▶ parks within zone or on boundary	yes	5.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	no	0.00
▶ public housing communities within zone or on boundary	no	0.00
Vulnerable users score:		76.31

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	7	14.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	yes	3.00
Report or other provided	no	0.00
Community support score:		22.00

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	5	1.99	9.93
Fatal or injury crashes on boundary streets	60	46.27	11.57
Crash history score:		21.50	

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	3	9.00
Number of zone edge streets with bus routes	3	3.00
Streets in zone identified as walking and biking routes in master plans	no	0.00
Proximity to active transportation network score:		12.00

TOTAL SCORE: 131.80

FEASIBILITY	
Clear boundaries	yes
Firehouses within zone	no
Hospitals within zone	no
Firehouses on boundary	no
Bus routes within zone	no
Miles of streets in zone	2.5 miles
Notes:	n/a

ANDREW SQUARE - CITYSIDE 1

NEIGHBORHOOD: SOUTH BOSTON

2017 RANK: 35 SCORE: 106.99

VULNERABLE USERS		POINTS
Percentage of households with children under 18	11.35%	17.03
Percentage of population aged 65 and above	6.45%	9.67
Community places	3	15.00
▶ public and private grade schools within zone or on boundary	yes	5.00
▶ parks within zone or on boundary	yes	5.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	no	0.00
▶ public housing communities within zone or on boundary	yes	5.00
Vulnerable users score: 41.70		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	19	38.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	yes	3.00
Report or other provided	no	0.00
Community support score: 46.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	3	1.08	5.42
Fatal or injury crashes on boundary streets	22	39.49	9.87
Crash history score: 15.29			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	1	3.00
Number of zone edge streets with bus routes	1	1.00
Streets in zone identified as walking and biking routes in master plans	no	0.00
Proximity to active transportation network score: 4.00		

TOTAL SCORE: 106.99

FEASIBILITY	
Clear boundaries	no
Firehouses within zone	no
Hospitals within zone	no
Firehouses on boundary	no
Bus routes within zone	yes
Miles of streets in zone	2.8 miles

Notes: The zone does not have clear boundaries. Buses travel on W 6th St and W 7th St.

ANDREW SQUARE - CITYSIDE 2

NEIGHBORHOOD: SOUTH BOSTON

2017 RANK: 34 SCORE: 107.60

VULNERABLE USERS		POINTS
Percentage of households with children under 18	1.47%	2.21
Percentage of population aged 65 and above	12.17%	18.25
Community places	2	10.00
▶ public and private grade schools within zone or on boundary	no	0.00
▶ parks within zone or on boundary	yes	5.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	no	0.00
▶ public housing communities within zone or on boundary	yes	5.00
Vulnerable users score: 30.46		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	19	38.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	yes	3.00
Report or other provided	no	0.00
Community support score: 46.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	3	2.82	14.10
Fatal or injury crashes on boundary streets	27	32.17	8.04
Crash history score: 22.14			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	2	6.00
Number of zone edge streets with bus routes	3	3.00
Streets in zone identified as walking and biking routes in master plans	no	0.00
Proximity to active transportation network score: 9.00		

TOTAL SCORE: 107.60

FEASIBILITY	
Clear boundaries	yes
Firehouses within zone	no
Hospitals within zone	no
Firehouses on boundary	no
Bus routes within zone	no
Miles of streets in zone	1.1 miles

Notes: n/a

ASHMONT AREA

NEIGHBORHOOD: DORCHESTER

2017 RANK: 11 SCORE: 159.74

VULNERABLE USERS		POINTS
Percentage of households with children under 18	28.21%	42.31
Percentage of population aged 65 and above	11.40%	17.09
Community places	4	20.00
▶ public and private grade schools within zone or on boundary	yes	5.00
▶ parks within zone or on boundary	yes	5.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	yes	5.00
▶ public housing communities within zone or on boundary	yes	5.00
Vulnerable users score: 79.41		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	13	26.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	yes	3.00
Report or other provided	yes	3.00
Community support score: 37.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	9	2.30	11.51
Fatal or injury crashes on boundary streets	93	51.27	12.82
Crash history score: 24.33			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	4	12.00
Number of zone edge streets with bus routes	4	4.00
Streets in zone identified as walking and biking routes in master plans	yes	3.00
Proximity to active transportation network score: 19.00		

TOTAL SCORE: 159.74

FEASIBILITY	
Clear boundaries	yes
Firehouses within zone	no
Hospitals within zone	no
Firehouses on boundary	no
Bus routes within zone	no
Miles of streets in zone	3.9 miles

Notes: n/a

ASHMONT ST / NEPONSET

NEIGHBORHOOD: DORCHESTER

2017 RANK: 36 SCORE: 106.15

VULNERABLE USERS		POINTS
Percentage of households with children under 18	23.10%	34.65
Percentage of population aged 65 and above	12.89%	19.34
Community places	2	10.00
▶ public and private grade schools within zone or on boundary	yes	5.00
▶ parks within zone or on boundary	no	0.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	yes	5.00
▶ public housing communities within zone or on boundary	no	0.00
Vulnerable users score: 63.99		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	4	8.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	yes	3.00
Report or other provided	no	0.00
Community support score: 16.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	1	0.63	3.16
Fatal or injury crashes on boundary streets	22	36.02	9.00
Crash history score: 12.16			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	3	9.00
Number of zone edge streets with bus routes	2	2.00
Streets in zone identified as walking and biking routes in master plans	yes	3.00
Proximity to active transportation network score: 14.00		

TOTAL SCORE: 106.15

FEASIBILITY	
Clear boundaries	no
Firehouses within zone	no
Hospitals within zone	no
Firehouses on boundary	yes
Bus routes within zone	no
Miles of streets in zone	1.6 miles

Notes: The zone does not have clear boundaries. The Engine 20 firehouse is located on a boundary street at 301 Neponset Ave.

BEACON HILL 1

NEIGHBORHOOD: BEACON HILL

2017 RANK: 15 SCORE: 142.55

VULNERABLE USERS		POINTS
Percentage of households with children under 18	17.42%	26.13
Percentage of population aged 65 and above	23.25%	34.87
Community places	2	10.00
▶ public and private grade schools within zone or on boundary	yes	5.00
▶ parks within zone or on boundary	yes	5.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	no	0.00
▶ public housing communities within zone or on boundary	no	0.00
Vulnerable users score: 71.00		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	5	10.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	no	0.00
Report or other provided	no	0.00
Community support score: 15.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	3	5.22	26.11
Fatal or injury crashes on boundary streets	10	45.75	11.44
Crash history score: 37.55			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	6	18.00
Number of zone edge streets with bus routes	1	1.00
Streets in zone identified as walking and biking routes in master plans	no	0.00
Proximity to active transportation network score: 19.00		

TOTAL SCORE: 142.55

FEASIBILITY	
Clear boundaries	no
Firehouses within zone	no
Hospitals within zone	no
Firehouses on boundary	no
Bus routes within zone	no
Miles of streets in zone	0.6 miles

Notes: The zone does not have clear boundaries.

BEACON HILL 2

NEIGHBORHOOD: BEACON HILL

2017 RANK: 38 SCORE: 105.44

VULNERABLE USERS		POINTS
Percentage of households with children under 18	12.98%	19.47
Percentage of population aged 65 and above	12.25%	18.37
Community places	1	5.00
▶ public and private grade schools within zone or on boundary	no	0.00
▶ parks within zone or on boundary	yes	5.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	no	0.00
▶ public housing communities within zone or on boundary	no	0.00
Vulnerable users score: 42.84		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	5	10.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	no	0.00
Report or other provided	no	0.00
Community support score: 15.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	2	3.38	16.90
Fatal or injury crashes on boundary streets	2	50.81	12.70
Crash history score: 29.60			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	6	18.00
Number of zone edge streets with bus routes	0	0.00
Streets in zone identified as walking and biking routes in master plans	no	0.00
Proximity to active transportation network score: 18.00		

TOTAL SCORE: 105.44

FEASIBILITY	
Clear boundaries	no
Firehouses within zone	no
Hospitals within zone	no
Firehouses on boundary	no
Bus routes within zone	no
Miles of streets in zone	0.6 miles

Notes: The zone does not have clear boundaries.

BLOOMFIELD PARK

NEIGHBORHOOD: DORCHESTER

2017 RANK: 18 SCORE: 138.47

VULNERABLE USERS		POINTS
Percentage of households with children under 18	44.05%	66.07
Percentage of population aged 65 and above	12.84%	19.26
Community places	0	0.00
▶ public and private grade schools within zone or on boundary	no	0.00
▶ parks within zone or on boundary	no	0.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	no	0.00
▶ public housing communities within zone or on boundary	no	0.00
Vulnerable users score: 85.33		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	3	6.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	no	0.00
Report or other provided	no	0.00
Community support score: 11.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	5	3.46	17.29
Fatal or injury crashes on boundary streets	11	47.41	11.85
Crash history score: 29.14			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	4	12.00
Number of zone edge streets with bus routes	1	1.00
Streets in zone identified as walking and biking routes in master plans	no	0.00
Proximity to active transportation network score: 13.00		

TOTAL SCORE: 138.47

FEASIBILITY	
Clear boundaries	no
Firehouses within zone	no
Hospitals within zone	no
Firehouses on boundary	no
Bus routes within zone	no
Miles of streets in zone	1.4 miles

Notes: The zone does not have clear boundaries.

CASTLE SQUARE APARTMENTS

NEIGHBORHOOD: SOUTH END

2017 RANK: 19 SCORE: 133.64

VULNERABLE USERS		POINTS
Percentage of households with children under 18	16.56%	24.84
Percentage of population aged 65 and above	20.21%	30.31
Community places	2	10.00
▶ public and private grade schools within zone or on boundary	no	0.00
▶ parks within zone or on boundary	yes	5.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	no	0.00
▶ public housing communities within zone or on boundary	yes	5.00
Vulnerable users score: 65.15		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	5	10.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	yes	3.00
Report or other provided	no	0.00
Community support score: 18.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	2	2.28	11.42
Fatal or injury crashes on boundary streets	20	36.29	9.07
Crash history score: 20.49			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	8	24.00
Number of zone edge streets with bus routes	3	3.00
Streets in zone identified as walking and biking routes in master plans	yes	3.00
Proximity to active transportation network score: 30.00		

TOTAL SCORE: 133.64

FEASIBILITY	
Clear boundaries	no
Firehouses within zone	no
Hospitals within zone	no
Firehouses on boundary	no
Bus routes within zone	no
Miles of streets in zone	0.9 miles

Notes: The zone does not have clear boundaries.

CENTRAL JAMAICA PLAIN

NEIGHBORHOOD: JAMAICA PLAIN

2017 RANK: 37 SCORE: 105.58

VULNERABLE USERS		POINTS
Percentage of households with children under 18	18.60%	27.90
Percentage of population aged 65 and above	13.90%	20.85
Community places	2	10.00
▶ public and private grade schools within zone or on boundary	yes	5.00
▶ parks within zone or on boundary	yes	5.00
▶ Boston Centers for Youth and Families within zone or on boundary	no	0.00
▶ Boston Public Libraries within zone or on boundary	no	0.00
▶ public housing communities within zone or on boundary	no	0.00
Vulnerable users score: 58.74		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	3	6.00
Presentation or conversation occurred	yes	5.00
Petition signatures collected	yes	3.00
Report or other provided	no	0.00
Community support score: 14.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	11	2.02	10.09
Fatal or injury crashes on boundary streets	18	38.97	9.74
Crash history score: 19.84			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	3	9.00
Number of zone edge streets with bus routes	1	1.00
Streets in zone identified as walking and biking routes in master plans	yes	3.00
Proximity to active transportation network score: 13.00		

TOTAL SCORE: 105.58

FEASIBILITY	
Clear boundaries	yes
Firehouses within zone	no
Hospitals within zone	yes
Firehouses on boundary	no
Bus routes within zone	no
Miles of streets in zone	5.4 miles

Notes: Arbour Hospital is located within the zone.

CHARLESTOWN

NEIGHBORHOOD: CHARLESTOWN

2017 RANK: 16 SCORE: 141.90

VULNERABLE USERS		POINTS
Percentage of households with children under 18	22.43%	33.64
Percentage of population aged 65 and above	11.50%	17.25
Community places	5	25.00
▶ public and private grade schools within zone or on boundary	yes	5.00
▶ parks within zone or on boundary	yes	5.00
▶ Boston Centers for Youth and Families within zone or on boundary	yes	5.00
▶ Boston Public Libraries within zone or on boundary	yes	5.00
▶ public housing communities within zone or on boundary	yes	5.00
Vulnerable users score: 75.89		

COMMUNITY SUPPORT		POINTS
Number of stakeholder letters	12	24.00
Presentation or conversation occurred	no	0.00
Petition signatures collected	yes	3.00
Report or other provided	yes	3.00
Community support score: 30.00		

CRASH HISTORY	TOTAL #	PER MILE	POINTS
Fatal or injury crashes on streets in the zone	9	1.62	8.08
Fatal or injury crashes on boundary streets	20	15.72	3.93
Crash history score: 12.01			

PROXIMITY TO ACTIVE TRANSPORTATION NETWORK		POINTS
Number of MBTA rail transit or Key Bus Routes that stop within .5 miles	7	21.00
Number of zone edge streets with bus routes	3	3.00
Streets in zone identified as walking and biking routes in master plans	no	0.00
Proximity to active transportation network score: 24.00		

TOTAL SCORE: 141.90

FEASIBILITY	
Clear boundaries	no
Firehouses within zone	yes
Hospitals within zone	no
Firehouses on boundary	no
Bus routes within zone	yes
Miles of streets in zone	5.6 miles

Notes: The zone does not have clear boundaries. The Engine 50 firehouse is in the zone at 34 Winthrop St. Buses travel on Park St and Common St.

CHARLESTOWN NEIGHBORHOOD COUNCIL

NEIGHBORHOOD: CHARLESTOWN

2017 RANK: 42 SCORE: 97.83

VULNERABLE USERS		POINTS
Percentage of households with children under 18	26.74%	40.12
Percentage of population aged 65 and above	7.57%	11.35
Community places	4	20.00
▶ public and private grade schools within zone or on boundary	yes	5.00
▶ parks within zone or on boundary	yes	5.00
