

Boston Public Health Commission Asbestos Abatement Project Permit

Instructions: Complete this application in its entirety. Incomplete applications will not be processed. Work may not begin until an Environmental & Occupational Health Division asbestos abatement project permit is issued. Mail this permit application, all required attachments, and a check or money order for the permit fee to:

ATTN: Asbestos Abatement Project Application
Environmental & Occupational Health Division
Boston Public Health Commission
1010 Massachusetts Avenue, 2nd Floor
Boston, MA 02118
617-534-5965

Non-residential applicants must complete Sections A-F of this application. Residential applicants must complete all sections (Sections A-J) of this application. Please note that a project is considered residential if it will occur in a residential or other sensitive setting, including, but not limited to:

- Homes
- Hotels
- Hospitals and health care settings
- Nursing homes
- School/college classroom buildings and dormitories

Application Date: _____ **BPHC Emergency Waiver Number (if applicable):** _____

A. Site Information	
Site Address: _____	
Name of Owner: _____	Owner Phone Number: _____
Owner Address: _____	
Owner Residence Address (if PO Box): _____	
B. Abatement Contractor Information	
Abatement Contractor Name: _____	
Abatement Contractor Address: _____	
DLI LIC #: _____	Phone Number: _____
Contact Person Name: _____	
C. Abatement Work Site Information	
Work Location(s): _____	
Work Schedule: Start Date _____	Completion Date _____
<i>You must work within the dates specified. You must notify EHO of a change in work or job cancellation.</i>	
D. Permit Fee	Payment must be made by Check or Money Order, made payable to Boston Public Health Commission. <i>Note: For large jobs with multiple parts, the permit fee is based on the cost of the asbestos abatement and disposal portion of the project. For example, if a \$1 million demolition project requires \$20,000 of asbestos identification, removal, and disposal out of the project cost, the permit fee is based only on the \$20,000 and will be equal to $0.012 \times \\$20,000 = \\240.</i>
Total cost of the asbestos abatement project: _____	
<input type="checkbox"/> Project costs less than or equal to \$10,000 → \$100 permit fee.	
<input type="checkbox"/> Project costs more than \$10,000 → permit fee is equal to the project cost multiplied by 0.012.	
Permit fee: _____	

Boston Public Health Commission Asbestos Abatement Project Permit

E. Required Attachments

- Check or money order for the permit fee (calculated in Section D)
- Copy of DEP Asbestos Removal Notification (ANF-001) form per 310 CMR 7.15(b) (Sticker # _____)
- Copy of BFD permit or permit application (per Boston Fire Code Sec. 7)
- EHO Emergency Waiver Number and Massachusetts DEP and DLWD emergency waivers (as appropriate)
- Residential projects only: include on Page 4 or attach pages/floor plans to show a plan of the work site and its relationship to other areas of the property and public spaces. Be sure to show: (1) location of building occupants and the public in relation to the work area, (2) location of electric and water hook-ups, (3) location of decontamination chamber(s), (4) all isolation barriers, (5) all doors, windows, vents, or other openings, (6) ground fault interrupters.

F. Additional Notifications and Certifications (please check all that apply)

- All asbestos abatement work will comply with the work practices required by 453 CMR 6.14 (DLWD), 29 CFR 1926.58, and 1910.1001 (OSHA), 310 CMR 7.00 (DEP), and 105 CMR 410.353 (State Sanitary Code)
- DLWD Notified (453 CMR 6.12)
- EPA Notified (40 CFR 6.14)

Applicant Statement of Consent

1. All applications for an asbestos abatement project permit must be made at least 10 days prior to the start of the project.
2. A permit will not be issued if an application is incomplete.
3. Work may not begin without a permit from the Environmental & Occupational Health Division (EOH). Call the office if you do not have your permit certificate in hand two days prior to the start of the job.
4. Supervisory personnel hired for this job must thoroughly review this application and proposed abatement plan. The officers of the asbestos abatement company are responsible for compliance with the approved abatement plan. If unforeseen circumstances arise which prevent compliance with the approved plan, the job must stop until an alternative plan is approved by the EOH. If there is a change in work dates or scope of work, the EOH must receive at least 48 hours prior notice. Failure to follow this plan and instructions are violations of 105 CMR 410.353 and/or MGL c111 s122.
5. You must post the issued asbestos abatement project permit outside the entrance to the work site where it is visible and accessible.
6. The law places liability for noncompliance with this plan on the executive offices of:
 - a. The asbestos abatement company performing the work
 - b. The general, or any other contracting company, subcontracting the asbestos work
 - c. A firm managing the property and/or the owner of the building
7. Failure to comply with the laws, regulations, rules, and policies governing this work can lead to civil and criminal persecution. Contractors are liable for violations and health hazards created by their employees.

I, the undersigned, have read and understand the above notices and instructions. I hereby certify, under penalties and pains of perjury, that, to the best of my knowledge, the information provided on this application is complete and accurate and in no way misrepresented.
