

Pre-action Sprinkler Permits

Pre-action Sprinkler Systems are issued from the BFD's standard installation application, with additional information required because of the added control needed for these systems. Speak with one of the BFD's Fire Protection Engineers for additional guidance if needed, 617-343-2043.

- Sprinkler System Permit Application.
- Fire Alarm Permit Application, to review pre-action panel and devices.
- Sequence of operation for pre-action system.
- Sequence of operation for building alarm system, showing when general/selective alarm is initiated by pre-action panel.
- See plan requirements online.
