Things to Know About Tufts Medicare Preferred PDP V

Who can join?

To join Tufts Medicare Preferred PDP V, you must be entitled to Medicare Part A, be enrolled in Medicare Part B, and live anywhere in the United States, including Puerto Rico.

If you are enrolled in a MA coordinated care (HMO or PPO) plan or a MA PFFS plan that includes Medicare prescription drugs, you may not enroll in a PDP unless you disenroll from the HMO, PPO, or MA PFFS plan.

Enrollees in a private fee-for-service plan (PFFS) that does not provide Medicare prescription drug coverage or a MA Medical Savings Account (MSA) plan may enroll in a PDP. Enrollees in a 1876 Cost plan may enroll in a PDP.

Which pharmacies can I use?

Tufts Medicare Preferred PDP V has a network of pharmacies. If you use pharmacies that are not in our network, the plan may not pay for your prescriptions.

You must generally use network pharmacies to fill your prescriptions for covered Part D drugs. You can see our plan's *Pharmacy Directory* at our website (**www.thpmp.org**).

What do we cover?

We cover Part D drugs. Generally, we only cover drugs, vaccines, biological products, and medical supplies that are covered under the Medicare Prescription Drug Benefit (Part D) and that are on our formulary. You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website, www.thpmp.org.

How will I determine my drug costs?

Our plan groups each medication into one of three “tiers.” You will need to use your formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug’s tier and what stage of the benefit you have reached. Later in this document, we discuss the benefit stages that occur after you meet the Medicare Part D deductible: Initial Coverage, the Coverage Gap, and Catastrophic Coverage.

This document is available in other formats such as Braille and large print.

Prescription Drug Benefits

Tufts Health Plan will include Wrap coverage in conjunction with your Part D drug coverage. Depending on which benefit stage you are in, the Wrap covers a portion of the cost of the drug. **This Wrap is additional coverage to your Tufts Medicare Preferred PDP plan and is offered through Tufts Insurance Company. Please see below for how the Wrap works in the different stages.**

Deductible Stage

You begin in this stage when you fill your first prescription of the year. During this stage:

- The Wrap will cover up to the Medicare Part D deductible (\$545).

You stay in this stage until your year-to-date "total drug costs" (your payments plus any Wrap payments) total \$545 (Medicare Part D deductible).

See cost share under the Initial Coverage Stage below.

Initial Coverage

You stay in this stage until your year-to-date total drug costs (your payments plus payments by the Part D and Wrap plan) total \$5,030. During this stage:

- You pay the applicable copayment based on the tier of the drug that you obtain.
- The Wrap will pay the balance of the cost after your copayment up to 25% of the cost of the drug.
- Tufts Medicare Preferred will pay for 75% of the cost of the drug.

You may get your drugs at network retail pharmacies and mail order pharmacies.

You pay the following:

Retail Cost Sharing

Tier	30-day supply	60-day supply	90-day supply
Tier 1 (Preferred Generic)	\$10	\$20	\$30
Tier 2 (Generic)	\$25	\$50	\$75
Vaccines	\$0	N/A	N/A
Tier 3 (Preferred Brand)	\$45 (Insulin: \$35)	\$90 (Insulin: \$70)	\$135 (Insulin: \$105)

Mail Order Cost Sharing			
Tier	30-day supply	60-day supply	90-day supply
Tier 1 (Preferred Generic)	N/A	N/A	\$20
Tier 2 (Generic)	N/A	N/A	\$50
Vaccines	N/A	N/A	N/A
Tier 3 (Preferred Brand)	N/A	N/A	\$115 (Insulin: \$105)

If you reside in a long-term care facility, you pay the same as at a retail pharmacy for up to a 31-day supply.

You may get drugs from an out-of-network pharmacy, but you may pay more than you pay at an in-network pharmacy.

Coverage Gap
<p>Most Medicare drug plans have a coverage gap (also called the “Donut Hole”). This means that there’s a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches \$5,030.</p> <ul style="list-style-type: none"> You pay the applicable Tier cost share (for Tier 1, Tier 2, or Tier 3) or \$35 for a 30-day supply of covered insulin drugs (\$70 for a 60-day supply, and \$105 for a 90-day supply), whichever is lower. For generic drugs on Tier 1 or Tier 2, you pay the Tier 1 or Tier 2 copayment. The Wrap will pay the balance of the cost of the generic drug until you move into the Catastrophic Stage. For brand name drugs on Tier 2 or Tier 3, you pay the Tier 2 or Tier 3 copayment. Until you move into the Catastrophic Stage, the Wrap will pay the balance of the cost of the brand name drug after your copayment and the 70% manufacturer’s discount. Both copayments and the 70% manufacturer’s discount on brand name drugs will count towards your out-of-pocket costs. <p>After you enter the coverage gap, you pay the following until your costs total \$8,000, which is the end of the coverage gap.</p> <p>Not everyone will enter the coverage gap.</p>

Retail Cost Sharing			
Tier	30-day supply	60-day supply	90-day supply

Catastrophic Coverage

After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) reach \$8,000, you pay nothing. During this payment stage, the plan pays the full cost for your covered Part D drugs.
